Dear Mr. Gale:

Bureau records disclose that time spent in office by Agents (TIO) of the Chicago Office for May was 20.5 per cent, which represents a decrease from 22.0 per cent in April. This is a favorable trend. You and your supervisory staff should continue to give attention to this to insure that all TIO is necessary.

Dear Mr. Gale:

Bureau records disclose that Time Spent in Office by Agents (TIO) for the month of August was 17.0 per cent. Memorandum

TO : DIRECTOR, FBI

DATE: 8/22/62

FROM : SAC, CHICAGO (67-832)

SUBJECT: CRIMINAL INTELLIGENCE PROGRAM
CHICAGO DIVISION
RECOMMENDATIONS FOR INCENTIVE AWARDS

Rebuairtel 8/20/62 captioned, "SAMUEL M. GIANCANA, AR".

Set forth on page two is the chronological order of events which transpired in the re-installation of CG 6486-C*. This re-installation was undertaken under the close personal attention of SAC JAMES H. GALE in each phase of the re-installation of the source. As is pointed out, there were extreme difficulties encountered in the re-establishment of this source which, in effect, amounted to making an installation from the initial stages in view of the fact that the premises were completely remodeled, including doors and locks. The complexities of the problems required five entries wherein the agents placed themselves in great personal danger. The entire operation required the use of 18 agents affording cover to the six agents who made the actual entries.

Enclosed herewith are recommendations for incentive awards for the eight agents who were involved in the actual entries during these five occasions.

It is recommended that an individual letter of commendation be directed to SA JOSEPH G. SHEA for the outstanding manner in which he assisted SA RALPH R. HILL in the obtaining of the keys which enabled the agents to make the re-entries. In addition, SA SHEA handled the control of the 18 surveillance agents, along with SA AUGUST C. KEMPFF, in such manner as the entire operations functioned smoothly without incident or exposure of this operation.

It is recommended that a letter of commendation be directed to SA KEMPFF for the manner in which he conducted the coordinating of the control unit monitoring of the police radio band and assignments of surveillance units in the immediate area in conjunction with movements of the local police officers on their night patrol, which was handled in an outstanding fashion.

and resulted in our ability to keep four cars in the close proximity of the premises without being discovered or challenged by the local authorities, which would have resulted in undue heat being brought in the location of the Armory Lounge.

It is recommended that a letter be directed to SAC GALE for the agents who participated in the surveillance assignments, it being noted that these were difficult surveillances to maintain and each agent participated in an outstanding fashion having contributed materially to the successful re-installation of this source.

CG 67-832

In August, 1961, CG 6486-C* was activated. In the next few months this source developed as the outstanding source of information available to the Chicago Division in a position to accurately report the most confidential decisions being made by SAMUEL GIANCANA and his henchmen in the control of organized crime in the Chicago area. This source repeatedly furnished information indicating the hoodlums' connection with leading politicians in the Chicago area, banking institutions they utilize and the enormous sums of money available to this group through their legitimate and illegitimate business activities.

On April 18, 1962, following a continuous, successful period of operation, this source advised that GIANCANA in a conversation with his henchmen was discussing remodeling plans which were accurately interpreted by the Chicago office as meaning the Armory Lounge was to be remodeled. In view of the fact that extensive remodeling operations could disclose the source, the source was immediately removed on April 19, 1962, and the evidence of the prior existence of this source sufficiently camouflaged with the result that during the major remodeling the hoodlums were not alerted to the prior existence of this material.

During the succeeding months daily contact was maintained at the Armory Lounge in an effort to closely follow the progress of the remodeling in order that possible re-activation of CG 6486-C* could be done at the earliest possible opportunity. During these surveillances and spot checks it was noted that TARQUIN SIMONELLI, DOMINIC BLASI (GIANCANA henchmen), and GIANCANA were observed in work clothes and were obviously doing a major portion of the remodeling work themselves.

It is to be noted that during this period of time CG 6343-C* reported a conversation wherein [redacted] brother of [redacted] where this source is located, discussed a complaint he had received about a remodeling job on the West Side which was being done without union labor. [redacted] advised he investigated and as soon as he observed the location he obviously did not register a formal complaint in view of the identity of the individuals involved and the location where this remodeling was being accomplished. b6

CG 67-832

During the remodeling process it was observed that the front door to the premises which opens onto Roosevelt Road, the main thoroughfare in this area, had the lock pulled and was permanently closed. This door was the means of access gained in the original installation of this source, which access was accomplished following [REDACTED]

b7D

In June, 1962, it was determined that [REDACTED] the Armory Lounge and surveillances were instituted by SA'S RALPH R. HILL and JOSEPH G. SHEA to identify this individual and develop all background information available as to his daily habits and movements.

On June 28, 1962, SA'S HILL and SHEA discussed plans they had formulated for a possible acquisition of keys to the new door to the Armory with SAC JAMES H. GALE and Supervisor [REDACTED]. This plan as developed by SA HILL was to utilize an automobile strongly resembling the plain clothes cars presently being used by the Chicago Police Department. It was felt that this device should be used rather than to bring direct attention to the FBI's interest [REDACTED] at the Armory.

b6

[REDACTED]

and the means of access to the Armory was obtained without disclosure of any interest in the Armory Lounge itself. This operation was one of the key maneuvers in re-establishing CG 6486-C*.

b7D

Surveillances continued on the remodeling progress at the Armory Lounge, and early in July, 1962, it was ascertained that the major portion of the remodeling had been completed thereby allowing plans for re-entry to be finalized.

CG 67-5327

On July 10, 1962, the first attempt was made at re-entry at which time an automobile belonging to GIANCANA's son-in-law was observed parked at the rear of the Armory Lounge and, because of the high degree of possibility that someone would return for this car during the early morning hours, actual re-entry was not attempted.

On July 12, 1962, the Armory was re-entered at approximately 2:30 AM. It is to be pointed out that three blocks from the Armory Lounge is the Pink Clock Tavern, which is frequented by a large number of hoodlums, all of whom have the potential of going from the Pink Clock to the Armory Lounge. It was, therefore, determined advisable in planning re-entry that no re-entries be made until the Pink Clock closed at 2:00 AM and the patrons had sufficient time to clear out of the neighborhood. Physical surveillances were established on GIANCANA, BLASI and SIMONELLI, it being felt these were the individuals most likely to return at any hour of the morning without advance warning. A physical plant was set up across the street from the Armory Lounge to direct all outside surveillance work and make the outside decisions in order to afford protection to the entering agents.

On this re-entry Sound Agents LLOYD H. NELSON, [REDACTED]

[REDACTED] were accompanied by SA'S

[REDACTED] and Supervisor [REDACTED]

the latter three affording protection and assisting the Sound Agents in semi-skilled installation work. During this re-entry one MITE unit was installed and taken to the telephone connector block that had originally been utilized in completing the circuit for this source. During this re-entry it was determined that all the leads to this connector block panel were dead, which indicated a new route had been utilized by the Telephone Company in taking the telephone wires into the building during the remodeling of the premises. In view of the fact that it was essential to vacate the premises before early morning light, it was essential to clean up the premises before checking out any additional information inside.

On July 24, 1962, another attempted re-entry was made at the Armory Lounge. In view of the character of the individuals

CG 67-832

controlling this location and their known attempts to determine possible surveillances, one car was designated on each trip to make a suspicious pass around the premises as a final gesture in determining whether any of the hoodlums were watching the location. On this occasion the car was spotted by SIMONELLI, who was parked two blocks away from the location, and for the remainder of the night SIMONELLI made obvious checks on the Armory Lounge and all the surrounding areas in an effort to see what activity was taking place. The re-entry plans were called off for that night and 24 hour surveillances were established on the Armory Lounge in an effort to see whether the hoodlums would continue this practice every night.

On July 27, 1962, re-entry was made into the Armory Lounge by Sound Agents [redacted] and GEORGE H. PARFET covered by SA'S [redacted] and [redacted] who gave inside protection. Re-entry was gained after 2:30 AM and these agents remained in the premises until after 5:00 AM tracing all of the new wires installed by the Telephone Company in an effort to seek a suitable pair that could be utilized to complete the wiring for the installation. All of these wires were traced behind new paneling which was determined to be canvas tightly stretched on wooden frames in large four by eight foot sections of such construction that any damage to the canvas would be obviously apparent and incapable of correction. This eliminated the possibility of taking off these panels in an effort to attempt to locate the source of the new telephone wires. On this occasion infra-red photographs of the interior were taken by SA [redacted] for use in determining the type of construction utilized in remodeling. b6

It is to be pointed out that the entire interior of the Armory Lounge was remodeled by the hoodlums. The canvas walls replaced the old plaster and wood panel construction, similar canvas was utilized in the ceiling covering the old plaster ceiling, the central air conditioning plant was removed and window air conditioners installed, the public toilets were moved to a new location, a new carpet was placed on the floor, new lighting fixtures were installed and all new telephone wires were run in the premises.

On August 2, 1962, re-entry was made by Sound Agents [redacted] and SA'S HILL and [redacted] at 2:45 3

b6

CG 67-832

AM and all of the old telephone wires formerly utilized were checked with a portable buzzer in an effort to locate one set of wires in the basement which was still connected with the old connector frame where the new source could be connected. This operation took in excess of two hours with the result that no wires of the numerous pairs checked could be located which were left intact during the remodeling operations. The hoodlums had obviously cut all old wires in the walls before the new paneling was installed.

Sound Agent [] made contact with known reliable sources at the Telephone Company and in view of the fact that installation could not be completed with existing wiring, he obtained the wiring charts and work records of the installer and was advised which pair would be available for this office. SA [] checked the previous connections to the pole behind the Armory and was satisfied that our "hook up" was satisfactory and had not been disturbed. b6

Inasmuch as the methods available that had been tried could not be utilized in the successful completion of this installation, it was determined by the Sound Agents that it would be necessary to drill through the floor in the rear room of the Armory and conceal the wires to the new telephone equipment before installation could be completed.

Special hollow cored, carbide tipped drill bits were obtained for this operation in view of the close proximity of a residential dwelling to the area where the drilling would have to be accomplished. The electric drill to be utilized was wrapped in heavy foam rubber to minimize the drill noise.

On August 6, 1962, re-entry was made by Sound Agents [] and SA'S HILL and [] at 2:30 AM. During this re-entry a 5/8" hole was drilled through the concrete floor from a position behind the floor molding at such an angle as to attempt to drill through the concrete block wall in the basement. This drilling was completed only during the times that the compressor on a large walk-in freezer was running in order not to create too much noise during these early morning hours. This drilling required over one hour's effort and it was essential that all evidence of the drilling be cleaned up and the 4 b6

CG 67-332

premises restored to their original condition. This re-entry lasted until approximately 5:00 AM that morning.

On August 16, 1962, re-entry was made by Sound Agents [redacted] along with SA'S HILL and [redacted]. At this time specially designed snare equipment prepared by the Sound Agents, as well as portable lighting, was utilized in fishing out the connecting wires between the walls in the basement which formerly were support columns for the air conditioning unit and appeared to house an abandoned basement room. It was necessary for the agents working in the basement to crawl in extremely cramped quarters with less than two feet clearance on piles of discarded tin, broken bottles and broken bricks in rat infested debris. It was essential to work with only flashlight illumination during all of these operations. During this re-entry CG 6486-C* was reactivated. b6

During the entries and attempted entries of July 10, 12, 24, 27, and August 2, 1962, outside control responsible for the over-all operation during the actual entry was operated by SA'S SHEA and AUGUST C. KEMPFF. SA KEMPFF utilized a radio tuned to the local police channel monitoring this station for suspect calls to the Armory Lounge in the event the entries had been detected. SA'S SHEA and KEMPFF exercised extremely good judgment in maintaining complete security for the agents on each of these efforts and recognized the major obstacle in the outside surveillances, and they handled their assignments in such manner that as complete security as could be obtained under these situations was afforded.

In each of the five instances where actual entry was gained the agents who made entry exposed themselves to extreme danger in excess of two and a half hours on each occasion. The planning of Sound Agent [redacted] was such that the Sound Agents handled their equipment in entry as well as in exits without confusion. The over-all planning of SA HILL, to whom this investigation is assigned, and Supervisor [redacted] was such that each entry was accomplished without confusion in a minimum of time, thereby reducing the exposure to these agents. b6

CG 67-832

On the entries of August 6 and 16, 1962, the outside control was maintained by SA'S [] and KEMPFF, who handled their responsibilities of controlling the surveillance units and the units utilized in picking up the agents leaving the scene in outstanding fashion. It is to be pointed out that in each of the five times when entry was made and on the times when attempted entries were called off because of lack of proper security it was necessary to utilize 18 agents in the outside cover and surveillance assignments to afford adequate protection to the six agents who made actual entry. The surveillance assignments were in neighborhoods that were difficult to maintain without creating disturbances which would be brought to local police attention. Any outside police interest in this operation had to be eliminated because of the known fact that the suburban police agencies are known to be sympathetic to GIANCANÁ's enterprises.

b6

The cars handling assignments affording close cover at the Armory Lounge in the event any unexplained visit to the Armory was made during actual hours of re-entry had an extremely difficult assignment in view of the fact that they had to be in a position to respond instantaneously in the event of intruders and yet be sufficiently discreet so as not to arouse suspicions to that particular area. All of these assignments were handled in an outstanding fashion with the result that the numerous re-entries needed in re-establishing this source were completed without arousing any suspicions.

MEMORANDUM FOR MR. TOLSON

Today I saw Chief Inspector James H. Gale, who has reported to Washington to be in charge of the Inspection Division.

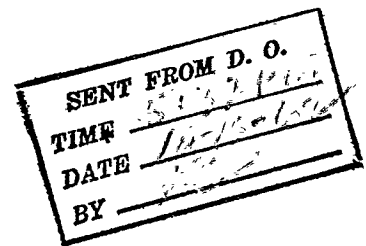

I discussed with Mr. Gale the importance of the inspection work and the various problems and difficulties we have had in the operation of inspection work resulting in it now being placed in a separate division. Mr. Gale showed marked enthusiasm for his new assignment and I believe he will enter into his new duties with enthusiasm.

Very truly yours,

NOTIFICATION OF PERSONNEL ACTION

Purpose of this memorandum is to recommend that notification of personnel action forms (fanfolds) not be prepared in connection with captioned designations.

Department of Justice Order No. 175-59, revised 4-1-59, instructs that except as to persons in the positions of Associate Director, Assistant to the Director, and Assistant Director of the FBI, the Director is authorized to exercise the power of authority vested in the Attorney General by law to take final action in matters pertaining to the employment, direction, and general administration (including appointment, assignment, training, promotion, demotion, compensation, leave, classification, and separation) of personnel, including personnel in Wage Board positions. The Order further stated that all personnel actions taken by the Director under this authority shall be subject to post-audit and correction by the Administrative Assistant Attorney General and to review by the Deputy Attorney General.

In the past [] Chief of Personnel Office, Department of Justice, said Department is interested only in being advised of specific designations of any Assistant Director or above, together with effective dates thereof. [] added he was not interested for example in reassignment of an Assistant Director from one division to another. He merely wanted to insure that the Attorney General approved the fanfolds naming Assistant Directors and higher positions. We have been doing this. For example, we did not obtain approval of fanfolds by the Department in prior designations of an Inspector in Charge of a division. However, if that individual was later designated Assistant Director of that division, the fanfold was approved by the Department.

RE: Joseph J. Casper

It is observed that in line with the foregoing we are not obliged to obtain the Attorney General's approval of fanfolds in the case of Mr. Malone as he was previously designated an Assistant Director, or in the case of Mr. Casper and Mr. Gale as their new titles are not that of Assistant Director.

RECOMMENDATION:

That no fanfolds be prepared as to Mr. Casper, Mr. Malone, and Mr. Gale.

Dear Mr. Hoover:

The Judges of the United States District Court for the Northern District of Illinois recently have learned of the transfer of Mr. James H. Gale from his duties as the Special Agent in Charge of the Chicago Office of the Federal Bureau of Investigation to his new position as your Chief Inspector.

This seems an appropriate occasion to express to you the appreciation of the Federal Bench of Chicago for favoring us with the fine services of Mr. Gale over the past two years. We wish to add our commendation of him to that of all official Chicago for his outstanding performance in your behalf.

During the period of his tenure as your Chicago representative, Mr. Gale, no less than his predecessors, has displayed the same excellent qualities of cooperation, understanding and consideration to which we have become so accustomed in your Chicago representatives. Under his leadership and example, the Agents of your Chicago Office have continued to exhibit the dedication to the cause of justice that you yourself have exemplified over the years.

While the transfer of Mr. Gale removes from the Chicago scene a fine leader in the field of law enforcement, we of the Federal

MEMORANDUM FOR MR. TOLSON

On January 3, 1963, I saw Assistant Director James H. Gale. Mr. Gale stated he was preparing to leave for New York to initiate an inspection of the New York Office and he wanted to receive any advice or counsel that I might desire to give him.

I told Mr. Gale that I wanted a very thorough and penetrative inspection of the New York Office because it is our largest one and the one in which we have always had certain personnel problems, due to its size and the peculiarity of its geographical location.

I stated he should make every effort to evaluate both the Agent and clerical personnel to be certain we have no mediocre or problem individuals at New York because it is too large an office to have any such problem individuals assigned thereto.

MEMORANDUM FOR MR. TOLSON

On February 4, 1963, I saw Assistant Director James H. Gale, who had just returned from an inspection of the New York Field Division.

I was particularly impressed with the penetrative manner in which Mr. Gale had conducted this inspection and his minute familiarity with many of the aspects of the operations of the New York Field Division. He felt there could be a reduction in personnel in the New York Field Division and some reorganization within the office. He stated, of course, that Mr. John F. Malone, the Special Agent in Charge at New York, has not been there very long but was taking hold firmly nevertheless.

Mr. Gale also took occasion to express his appreciation for his promotion to the position of Assistant Director in charge of the Inspection Division.

Very truly yours,

John Edgar Hoover
Director

This is to advise that on July 1, 1963, my son, aged 7, received a slashing dog bite in his groin which was approximately two inches long, and bled profusely. The dog which bit him is a large German police dog owned by Lt. Colonel [REDACTED] USAF, who lives at [REDACTED] Fairfax County, Virginia, which is several houses from my residence. This is the third time in the past several weeks that this dog has bitten my son. This attack was unprovoked and the boy was not teasing or playing with the dog as he is very much afraid of him. On the other two occasions the bites were not serious and my wife took no action other than to call them to the neighbor's attention. However, upon consulting with our doctor concerning the bite yesterday, the doctor advised that this matter should be immediately reported to the Fairfax County authorities in order to determine whether the dog has rabies. b6

Subsequently, the dog was picked up by employees of the Fairfax Dog Pound where he will be kept for 10 days to determine whether or not he has rabies. If he does not have rabies, he will be released to the owner. If he has rabies, my son will have to undergo an extensive series of anti-rabies shots.

It is my understanding that this dog has also bitten a four-year-old girl as well as one of the neighborhood milkmen. The owner permits the dog to run loose contrary to existing Fairfax County Statutes, which specify that a dog must either be kept in the house, in a fenced yard, tied up in some manner, or on a leash. REC-145 67-137786-396

My wife discussed this matter with Colonel and Mrs. [REDACTED] at [REDACTED] which time they expressed a great deal of regret that their dog had bitten my son. However, Colonel [REDACTED] has indicated that he did not desire to get rid of the dog and he also stated that it would be unfair to the dog to keep him fenced up or tied up or in the house, and he indicated that when he gets the dog back from the Dog Pound, he contemplates once again letting the dog run loose, contrary to the provisions of the Fairfax County Statutes. I have not participated in any discussions with the [REDACTED] and these discussions between them and my wife concerning this matter have been on a cordial basis. b6

Memo for Mr. Tolson

Re: Lt. Col. [redacted]

If this were merely a passing incident I would certainly be inclined to ignore it. However, this is the third time the boy has been bitten. The dog has bitten other individuals and I definitely feel that a large dog with these vicious propensities should be controlled by the owner. b6

The police have strongly suggested in view of the circumstances and the unreasonable attitude of Colonel [redacted] that a warrant be sworn out before a local Justice of the Peace for Colonel [redacted] and stated that [redacted] would thereafter be required to report to the Justice of the Peace who undoubtedly would fine him and suspend the fine on condition that he keep his dog under such control that he is not biting children in the neighborhood.

I have been in the Bureau since 1939 and neither I nor any members of my family have ever been involved in any dispute with our neighbors. I am certainly most reluctant to take any action concerning this matter as I myself am very fond of dogs; however, this boils down to whether I must keep my two children constantly in the house because of this marauding dog or whether the owner will keep control of this dog so that my children can enjoy normal play habits. The doctor advised that if the dog had bitten the boy in the face, around the eye or in any vulnerable part of his body, the way he bit him yesterday, it could have permanently injured him. I feel that we have displayed a great deal of patience and forbearance in handling this matter to date; however, under the circumstances I feel constrained to permit my wife to swear out a warrant with the Fairfax County Justice of the Peace unless this dog is kept by its owner in accordance with the existing laws. I am told that the police cannot take this action on their own initiative.

Unless advised to the contrary we contemplate again discussing this matter with Colonel and Mrs. [redacted] in a friendly and businesslike manner, completely outlining the problem and telling them that if they do not comply with the Statutes we will be forced to take the above-described action with respect to obtaining a warrant from the Justice of the Peace. No civil legal action is contemplated in connection with this matter. b6

RECOMMENDATION:

If there are any further developments in this matter, the Bureau will be kept advised.

On June 3, 1963, I purchased a house from the above-captioned firm. In the contract they warranted a dry basement for one year and also warranted against defects in workmanship and material. They subsequently put in a driveway which is improperly elevated and it is impossible to get an automobile in same, which makes the garage completely unusable. During heavy rains I also have had water in my basement. Repeated efforts to have the builder repair these defects have resulted in excuses, procrastination and delaying tactics. The builder has advised that he realizes he is definitely obligated to fix these items, but now states the company has no ready cash and is facing possible bankruptcy.

Independent estimators advise it will probably cost over \$1000 to repair these defects. We have learned that two of his creditors (a roofing company and an electrical contracting company) have recently filed suits against this company. We have also learned that the corporation does have some assets in the form of second trusts on homes sold.

I likewise contemplate filing suit in Fairfax Small Claims Court (which handles claims up to \$2000) with a view to obtaining a judgment in order that I may establish myself as a general creditor in the event the corporation goes into bankruptcy. In all probability it will be a judgment by default.

The above is being submitted for record purposes.

The following is a brief summary of Mr. Gale's record for the Director's use.

Mr. Gale entered on duty 11-29-39 as a Typist and 6-21-43 as a Special Agent. He was on military leave from 10-16-44 to 3-27-46. He is presently in Grade GS-18, \$20,000 per annum. He is 42 years of age, is married and has 2 children.

His file indicates the Director last saw him on 2-4-63 and he has not been CENSURED since that time. Mr. Gale was last CENSURED on 4-18-61 inasmuch as he and his subordinates delayed in handling a Special Inquiry investigation. At the time of this censure he was serving as Special Agent in Charge of the Chicago Office. Since 4-18-61 he has been COMMENDED on numerous occasions, the latest one being on 9-6-62, when personnel of the Chicago Office were COMMENDED through him for their fine assistance in connection with the FBI exhibit at the 125th Anniversary of the founding of the City of Chicago.

On 3-31-63 Mr. Tolson rated him OUTSTANDING. By letter dated 4-9-63 he received an INCENTIVE AWARD in the amount of \$500.00 for his superior services from 4-1-62 to 3-31-63.

particularly impressed with the penetrative manner in which he had conducted the recent New York Inspection and his minute familiarity with many of the aspects of the operations of the New York Division.

By letter dated 11-1-63 he was advised he was being promoted to Grade GS-18, \$20,000 per annum effective this date.

His daily average overtime is considered satisfactory.

Memorandum dated 7-2-63 reflected Mr. Gale advised his son was bitten three times by a neighbor's dog in the past several weeks. His wife had discussed this matter with the neighbors; however, they contemplated letting the dog continue to run loose. Mr. Gale stated they contemplated again discussing this matter with them and if they did not comply with the Statutes they would be forced to swear out a warrant with the Fairfax County Justice of the Peace unless this dog was kept by its owner in accordance with the existing laws. The Director noted "Gale is certainly right."

His brother-in-law, [redacted] is presently employed by the Bureau as a Special Agent. He entered on duty 6-12-61, is in Grade GS-11, \$8310 per annum and is assigned to the Memphis Office. MEMORANDUM TO MR. TOLSON

On November 5, 1963, I saw Assistant Director James H. Gale of the Inspection Division, who called on me to express his appreciation for his promotion to Grade GS 18.

I discussed with Mr. Gale the great importance and value of the inspection work which his division carries on and the need for it to be most penetrative so we may have "hard-hitting" operations in the field and at the Seat of Government.

Very truly yours,

J. E. H.

MEMORANDUM FOR MR. TOLSON

On February 18, 1964, I saw Assistant Director James H. Gale, who was preparing to initiate an inspection of the New York Office commencing on February 24, 1964.

Mr. Gale wanted to get the benefit of any views which I might have concerning the forthcoming inspection at New York. I told him I wanted the inspection to be particularly thorough and penetrative as this was the largest office we had and by reason of its size and the peculiar conditions in connection with living in New York, we must make certain that the operation of our New York Office is being directed firmly and fairly and that all employees therein are dedicated employees and are observing the proper rules relative to official and personal conduct.

MEMORANDUM FOR MR. TOLSON

On November 13, 1964, I saw Assistant Director James H. Gale of the Inspection Division. Mr. Gale makes an excellent personal appearance and has had extensive background experience in the Bureau, having served in a number of field offices and later as ASAC at Anchorage and as SAC at Anchorage, Richmond, and Cincinnati when he was transferred to Washington where he has served in the Training and Inspection Division; he was then named SAC of the Washington Field Office and later made SAC of the Chicago Office, after which he was brought back to Washington and named Assistant Director in charge of the Inspection Division.

I told Mr. Gale that I was planning to transfer him to the Assistant Directorship which was being vacated by Mr. Courtney Evans of the Special Investigative Division. I discussed with him generally the work of that Division and the need for firm but fair administration of it. I emphasized the fact that I wanted intensification in regard to the campaign which we have carried on against the hoodlum element in the country.

Very truly yours,

Dear Mr. Gale:

The agents assigned to the Special Investigative Division who worked on the investigation leading to the apprehension of Top Ten Fugitive Walter Lee Parman, the subject of an Unlawful Flight to Avoid Prosecution-Murder case, did superior work and I am taking this occasion to commend them, through you.

The success achieved in the arrest without incident of this badly wanted fugitive can be attributed in no small measure to the unusually thorough and resourceful manner in which these men discharged their particular responsibilities. Their services were indeed noteworthy and I want you to convey my sincere appreciation to all for their valuable contributions.

Sincerely yours,

On March 12, 1965, I received a call from ASAC John J. McDermott, Washington Field Office, at which time he advised that Polk and Company, publishers of the City Directory, had received a letter from Associate Professor of French, Department of Modern Languages, at Florida State University, Tallahassee, Florida, requesting that they furnish any possible information concerning me. pointed out to them that I was an Assistant Director of the FBI in charge of the Inspection Division and resided at 916 Rocky Mount Road, Fairfax, Virginia. He wanted to know my age, date and place of birth, religion, seniority in the FBI, educational background, physical characteristics, height, weight, etc. The Polk Company has furnished this letter to their Richmond headquarters and advised they do not have any information of this type and suggested he direct any inquiries to the FBI headquarters.

I received a letter from addressed to my home on March 9, 1965, requesting to be advised if I were identical with a 50-year-old FBI Agent who had a 30-year-old daughter named and who was Jewish. has likewise written the Department requesting background information of me which letters were referred to the Bureau.

Bureau files reflect that is emotionally disturbed and a psychiatric case. He has previously written to the Director and Miss Gandy indicating that he intended to renounce his American citizenship and assume Arab nationality to serve the United Arab Republic. All of his previous letters have been of a rambling, sometimes incoherent nature. I am not acquainted with and have no idea how he got my name and address.

**JAMES H. GALE
ASSISTANT DIRECTOR
SPECIAL INVESTIGATIVE DIVISION**

Mr. Gale was Assistant Director in charge of the Inspection Division until December 15, 1964, when he was designated Assistant Director of the Special Investigative Division. During the entire rating period he has served in an exceptional fashion and definitely merits the rating of Outstanding.

In his present position he has the direct supervisory, administrative, and executive responsibility for the initiation and implementation of the Bureau's investigations in various criminal violations and in Federal personnel matters of an applicant and security nature. His division maintains centralized control over these items in all field offices as well as certain foreign establishments. These activities cover some of the most vital and involved phases of the Bureau's work and he has kept the Director and highly placed Government officials apprised of developments of the utmost importance to the operation of the FBI and the welfare of the Nation.

Mr. Gale possesses in large measure the supreme confidence necessary for one in his position. His approach to his work, his spirit of self-reliance, and his sincerity of purpose inspire both trust and respect. Due to the ever-changing situations in organized crime and other areas under his direction, he regularly makes split-second decisions. Dedicated to his job, with unlimited vigor and a keen understanding of the Bureau's functions and procedures, he has all the qualities of a superb leader.

Mr. Gale has certainly earned the rating of Outstanding for the superior manner in which he has fulfilled his obligations during the past year in the Inspection and Special Investigative Divisions.

This memo is submitted in answer to the anonymous communication dated 5/15/65 addressed to the Director postmarked at El Paso, Texas, 5/16/65 making allegations concerning me during a conference of Prosecuting Attorneys of the Southwestern States which the author claims was held in Phoenix, Arizona, about a year ago and at which he alleged I never spoke as scheduled at this conference because of incapacity "due to prolonged intoxication." I am very sorry the Director and the Bureau have to take up valuable time with this vicious matter but I can assure you and the Director that this is an unmitigated vicious lie. I have been privileged to represent the Director and the Bureau in various important liaison functions for almost the past five years and this is the very first complaint to my knowledge concerning my handling of these matters. I have always been very proud of the privilege to represent the Director; this work has many times been far from easy; and I have spent a great deal of my own time and money in an effort to do the kind of job I felt would bring credit to the Bureau and serve its best interests.

James H. Edwards

Specifically, concerning the Phoenix meetings, there were two which I attended and from the allegations in this letter, it is difficult to pinpoint with exactitude which one the author has in mind. So, I will briefly refer to both of them.

The very first time I was ever in Phoenix was to represent the Bureau at the 1963 annual meeting of the Western Association of Attorneys General. This was held at the Hotel Westward Ho in downtown Phoenix, 10/6-9/63. I arrived by plane the evening of 10/6/63, was registered at the Hotel Westward Ho and I departed Phoenix by plane on the morning of 10/10/63. I was scheduled to speak on a Tuesday morning panel, 10/8/63, on the subject of "Search and Seizure" with particular reference to law enforcement problems arising from the U. S. Supreme Court's decision in Mapp v. Ohio. Assistant Attorney General M. H. Hemmen of the State of Washington was also on the panel. I spoke as scheduled beginning at approximately 11:00 a.m., and spoke for about twenty minutes following which there were some questions and answers. The summary of my remarks was subsequently printed in the formal summary of the meeting on pages 8, 9 and 10 (Summary attached). Former Attorney General of Arizona Robert Pickrell was the conference host and I am sure he as well as all of the individuals in attendance can vouch for my complete sobriety.

Memorandum for Mr. Mohr
RE: PERSONNEL MATTER

The second and only other time I was in Phoenix was to represent the Bureau at the winter meeting of the National District Attorneys Association held at the Ramada Inn, outskirts of Phoenix, 3/3-7/64. I was scheduled to arrive in Phoenix the afternoon of 3/3/64 but was fogged in at Chicago and did not arrive until the early morning hours of 3/4/64. I stayed at the Ramada Inn during the entire meeting and departed from Phoenix Sunday morning 3/8/64. I was scheduled to speak on the program Wednesday afternoon, 3/4/64. The session was from 2:30 to 4:00 p.m., the title was "Topics of Interest to Prosecutors." Former SAC Edward Boyle was also scheduled as a speaker and there were several prosecutors as panelists. Both Boyle and I appeared. Boyle summarized FBI cooperative services of interest to local prosecutors and I spoke regarding recent problems to prosecutors and law enforcement which have arisen from Supreme Court cases, many of which pertained to the expanding rise of due process which have had the effect of broadening the rights of the criminal and subordinating the rights of society. The panel was well attended. There were numerous complimentary remarks including some requests for copies of my talk. Although no formal minutes of the National District Attorneys Association meeting were made I did receive a copy of a letter which the host Prosecutor [redacted] County Attorney at Phoenix sent to the Director 3/19/64 thanking the Director for making SAC Boyle, SA [redacted] of the Phoenix Office [redacted] spoke at a separate panel on prosecutions of sex crimes, he being a fully qualified police instructor), and myself available b6 indicating we added immeasurably to the success of the program.* I also received a personal note from [redacted] saying, "Again, may I tell you how grateful I personally am to you." Again, may I say that I was completely sober at this function.

The other allegations in the letter are so outlandish and ridiculous as to hardly deserve comment but I wish to brand them as vicious lies. I never met the manager of either the Westward Ho or Ramada Inn. I was introduced in the lobby of the Ramada Inn to Mr. [redacted] its Security Officer, and although he wanted me to also meet the manager, [redacted] I did not get the opportunity and out of courtesy, I sent [redacted] a personal note following the meeting telling him I regretted not having had the opportunity to make his acquaintance. At no time during any of these meetings was it necessary to either accompany me to my room or get me out of my room and at no time was I drunk. b6

The allegation about an arrest for drunk driving and having to be carried to the hotel by a police sergeant and put to bed is a bald-faced lie. I do recall that

*Attached are two photographs taken of this panel, both of which show me participating in the panel. Former SAC Boyle and a number of local prosecutors are also pictured.

Memorandum for Mr. Mohr
RE: PERSONNEL MATTER

on my last night in Phoenix following the termination of the Attorneys General meeting late that afternoon (10/9/63) I drove a rented car in order to see some of the Phoenix area, particularly the Camelback Mountain and Scottsdale area which is so much talked about. I was alone the entire time. I drove out to some highly recommended restaurant where I had dinner about 9:00 p.m. Thereafter I drove to the famous Mountain Shadows Resort Hotel, walked around the lighted outdoor pool and lobby area, had two bottles of beer at the bar and then started driving back to my hotel because I had to catch an 8:30 a.m. flight in the morning.

The distance back to Phoenix was considerable and the route was a bit confusing because I had been more intent on sightseeing while driving out. Without realizing it, I drove past the intersection I should have taken into Phoenix. After proceeding some miles, the area began to look strange and I tended to speed up in search of some sign or service station where I might inquire. All of a sudden I was flagged down by a police vehicle with a flashing red light. They asked for my operator's permit and seeing it was out of state and my car had Arizona tags, they asked where I was headed. When I told them "The Westward Ho Hotel" they acted somewhat incredulous and said I was headed away from that. They gave me a ticket for exceeding the speed limit and told me where I had missed the intersection about five miles back. I thanked them, turned around and drove back to my hotel.

That morning (10/10/63) I had a cup of coffee with SAC Boyle at the airport before boarding my plane at 8:30 a.m. Inasmuch as I would have no opportunity to take any action myself on the traffic ticket, I told SAC Boyle of the incident and asked him to ascertain for me just what I had to do to properly comply with the ticket. SAC Boyle said that this would probably involve no action whatever because I was from out of state and although Arizona was known to be strict on traffic enforcement, it was also known to be extremely lenient with tourists and other out of state drivers. I emphasized to SAC Boyle that a "speeding ticket was no major sin" and therefore I wanted to handle it properly. (This was only the second traffic ticket I had ever received in my life and the first one for exceeding the speed limit.) SAC Boyle assured me that he would personally make inquiry and if there was any fine or other action he would promptly advise me. On my return home I also alerted my wife to be on the lookout for any communication which might come to my home address from the Phoenix Traffic Department so that she could promptly notify me of any action required in the event I might be out of town.

Memorandum for Mr. Mohr
RE: PERSONNEL MATTER

(My operator's permit reflects my home address.) After waiting a reasonable time I sent a follow-up note to SAC Boyle to inquire as to the status of this matter. At some considerable time thereafter I was talking to SAC Boyle and again reminded him of this and he told me that he had personally inquired of the matter and that no fine or other action was taken and that I should forget the entire thing, and further, that no special consideration had been requested or afforded, probably because I was from out of state. There was no known involvement of the Bureau in this matter whatever and my status as a Bureau employee did not enter my discussion with the traffic officers. The only connection they could have possibly known was my attendance at the Attorneys General conference at the Westward Ho Hotel. At the late date I received the final status of this matter from SAC Boyle I did not advise the Bureau nor did I advise the Bureau earlier because of my lack of complete information. This judgment I can see now was unfortunately bad, which I regret.

Edwards should have promptly reported this. H

The allegation that two FBI Agents came to the hotel and spent the day getting me sober is an absolute falsehood. The only Agents other than the SAC that I had contact with during either meeting was SA Joseph Pyne of Phoenix, a police instructor who gave me a fill-in on some of the local search and seizure problems and some of the local police training programs so as to orient me for the Western Association of Attorneys General meeting, and SA police instructor [redacted] b6 who was on the National District Attorneys Association panel referred to above, and I assisted [redacted] in introducing him to a number of key people prior to his appearance.

I wish I could throw some light on the obvious spite which has motivated this letter but I cannot. I am confident any inquiries made in this matter will expose the vicious falsity of this anonymous communication. For what it is worth, I wish to remind the Bureau that former SA [redacted] is reportedly now practicing law b6 in Phoenix. I recall that during the Attorneys General meeting in October, 1963, the Bureau had just received information that [redacted] was endeavoring to be admitted to practice in Phoenix. I specifically alerted SAC Boyle to this and spent considerable time briefing him on [redacted] vicious past activities. I know, as does the Bureau, that SAC Boyle did take a number of specific steps thereafter to try to thwart [redacted] efforts to be admitted. He was successful at the lower levels but, as the Bureau, knows, [redacted] succeeded on final appeal.

I will be glad to furnish any additional information needed to assist in clearing this matter up.

*I summarize the letter above
was written by [redacted] or [redacted].
Both are psychopaths liars.*

Dear Mr. Hoover,

About a year ago there was a conference of prosecuting attorneys of the wouthwestern states held at Phoenix, Arizona. One of the speakers at this conference was to be your assistant, Lynn Edwards. Mr. Edwards never spoke because he was incapable due to prolonged intoxication. I do not think you were made aware of this situation because I just learned that Mr. Edwards is still one of the top officials of the FBI. I am sure you do not want this type person representing you throughout the country and this is why I am writing you.

The facts of this Phoenix incident was common knowledge to the attorneys attending the conference. They were reported to the immediate superior of Mr. Edwards, Jim Gale, who apparently chose to take no action. The facts are this.

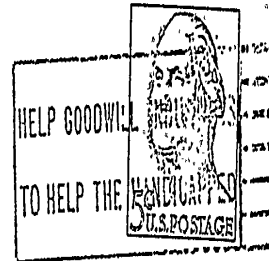

The conference was held at a main hotel on Central Avenue in Phoenix and several of the persons attending stayed at this hotel, as did Mr. Edwards. On the morning Mr. Edwards was to speak, he did not appear so about twenty minutes before his scheduled speech, the hotel manager went to Mr. Edwards' room and knocked. When he failed to get a response to his knock, the manager opened the door to the room. He found Mr. Edwards in bed and in such a drunken condition that he called the man in charge of the FBI in Arizona, a Mr. Ed Boil. Two FBI agents came to the hotel and spent the day getting Mr. Edwards sober. This was a bad situation, but not the end.

After the two FBI agents left Mr. Edwards at about 6:00PM, this man continued his drinking spree. He was arrested early the next morning in the north part of Phoenix for drunk driving by a Phoenix policeman. When the identity and position of Mr. Edwards became known to the policeman, he called his sergeant who tried to talk the policeman out of arresting Mr. Edwards. The policeman gave some ground and issued a traffic ticket for driving on the wrong side of the highway and running a stop sign. The police sergeant carried Mr. Edwards to the hotel and put him to bed.

Before leaving Phoenix later that morning, Mr. Edwards ordered Mr. Boil to fix the ticket. Mr. Boil called your office and talked to Mr. Gale who told him to take care of the ticket. It took two FBI agents all day to get the ticket fixed with the Phoenix police. Mr. Hoover, I do not think you were told about this man because he is still on your staff.

I am sending a copy of this letter to the Attorney General because of his interest in the matter.

He is a 19-year-old student at the University of Florida, presently home on vacation, and residing with his parents. He advised that he was the individual responsible for hitting my car earlier the same morning. He stated he tried to avoid hitting a dog running across the street, swerved his automobile, lost control of it, and struck my car. He stated that he thereupon panicked, and left the scene of the accident. b6

A Fairfax County police officer subsequently interviewed this young man at my residence, obtained the facts concerning this matter, and admonished [redacted] for leaving the scene of an accident. No citation was issued and the matter was referred to our respective insurance companies. Damage to [redacted] automobile was approximately \$200. b6

SYNOPSIS:

Anonymous letter to Director 5-15-65 made following allegations:

Allegation #1: About a year ago Lynn Edwards was to speak at conference of prosecuting attorneys of southwestern states in Phoenix, Arizona, but never spoke because incapable due to prolonged intoxication. Facts: Edwards attended two conferences in Phoenix, one from October 6-9, 1963, and second from March 3-8, 1964. He was scheduled to speak, and actually did, at both conferences, but from other facts writer apparently refers to October, 1963, conference. SA Joseph Pyne and former SAC Edward Boyle both state they had breakfast with Edwards prior to speech, saw him in front of conference room, and no indication he had been drinking. Summary of remarks by Edwards later published in summary of meeting. Allegation #2: That facts of incident were reported to Jim Gale. Facts: Assistant Director Gale and former SAC Edward Boyle deny that Gale was told anything about this matter. Allegation #3: On morning Edwards was to speak he did not appear, so about 20 minutes before scheduled speech hotel manager went to Edwards' room, knocked, and failing to get response opened room door and found Edwards in bed in such drunken condition that manager called former SAC Boyle and two agents came to hotel and spent day getting Edwards sober. Facts: SA Joseph Pyne left office at 8:20 A.M. on 10-9-63 (day after Edwards spoke), picked up Edwards' plane tickets to deliver to Edwards at Westward Ho Hotel, arrived at hotel about 9 A.M. and, after failing to locate Edwards in conference room or restaurant, called Edwards' room on house phone, received no response, knocked on door, no response, requested maid to open door but unable to do so since locked from inside. Pyne then called Boyle, who arrived immediately, and got hotel manager, [redacted] to admit them with master key. Edwards was asleep, manager left immediately, did not go near bed, and cannot say whether Edwards was drunk but both Boyle and Pyne state Edwards was not drunk, got up immediately and, after dressing, joined Boyle in lobby shortly thereafter. They had breakfast together, Boyle states attended portion of morning session of conference with Edwards and attended conference luncheon with him. Pyne proceeded from hotel to police school. Neither saw Edwards during afternoon or evening. Edwards states on night of 10-8 had attended reception and state dinner, had two highballs before dinner, and one beer and two drinks

during remainder of evening, conversed with various attorneys general, and got to bed about 3 A.M., 10-9, planning to skip breakfast prior to 10 A.M. conference session that date. He vaguely recalls Pyne and Boyle awakening him and joining them in lobby shortly after 9 A.M. He feels reason for sleeping soundly was change of altitude and climate and having gone to bed late. Allegation #4: After the two FBI Agents left Edwards about 6 P.M. he continued his drinking spree, was arrested early next morning in north part of Phoenix for drunk driving and, when Edwards' identity and position became known to the policeman he called his sergeant who tried to talk the policeman out of arresting Edwards. Policeman gave some ground and issued traffic ticket for driving on wrong side of highway and running stop sign. Police sergeant carried Mr. Edwards to hotel and put him to bed. Facts: As noted above, neither Boyle nor SA Pyne saw Edwards after noon, 10-9. Edwards states after conference ended he handled various windup matters, made some phone calls, packed clothes, had late dinner, decided to sightsee in area several miles east of Phoenix and after dinner drove rented car to Mountain Shadows resort hotel where he wanted to see several people, arriving after midnight. He had two beers, failed to locate friends, and had coffee at restaurant on way back to town. He states in memo of 5-19-65 that area was confusing and unfamiliar, he missed intersection turnoff for Phoenix, and after some miles became concerned when area looked strange and he tended to speed up in search of sign or service station, was stopped by police vehicle, showed operator's permit, and officers issued ticket for speeding, gave him correct directions, and he drove back to hotel. Traffic ticket on file at Phoenix Police Department reflects issued 3:30 A.M., 10-10-63, to Edwards for unlawful speed 60 miles per hour in 45 mile per hour zone by Officers [redacted] penalty shown as \$30 or 10 days with plea of guilty having been entered on 10-15, found guilty, and sentence suspended by Judge James M. Smith (former Bureau Agent). Officer [redacted] on vacation and unavailable for interview. Officer [redacted] recalled stopping car in early morning during attorneys general conference but did not realize at time that driver was connected with FBI, states felt driver had had something to drink from odor of breath but definitely was not under the influence. States Edwards at first refused to sign the ticket and asked to see superior officer and Sergeant [redacted] was called to scene (in accordance with police instructions whenever driver will not sign ticket). Roberson explained to Edwards that signing did not admit guilt but merely constituted promise to appear in court. Edwards explained he was returning east that morning and could not appear so refused to sign ticket. Officers then told him he could have someone appear for him and he thereafter signed ticket and was allowed to drive back to town. [redacted] also stated did not know driver's connection with FBI and if had been drunk would have put in jail, did not recall any question of drinking involved, and Edwards not objectionable in conduct. Allegation #5: Before leaving Phoenix later that morning, Edwards ordered Boyle to fix ticket, Boyle talked to Gale, who told him to take care of ticket, and it took two FBI Agents all day to get ticket fixed with Phoenix police. Facts: Edwards states before leaving on 8:30 A.M. plane on 10-10, five hours after ticket issued, he asked Boyle what to do to properly comply with ticket since he could not appear in court. Boyle

Memo from W. S. Tavel to Mr. Mohr

indicated probably no action would be taken since out-of-state driver and agreed to inquire and advise Edwards if any fine or other action. Edwards heard nothing further, later asked Boyle and was told Boyle had personally inquired, no action was taken, and Edwards could forget matter. Edwards felt since status as Bureau employee not known Bureau would not be involved and regrets he did not advise Bureau earlier. Director noted: "Edwards should have promptly reported this. H." Boyle confirms above, states he appeared before Judge Smith, entered plea of guilty for Edwards, offered to pay fine, but Judge Smith stated under circumstances he would suspend fine. Judge Smith recalls incident, confirms that Boyle offered to pay fine but suspended as courtesy to law enforcement agency. Gale denies knowing this and Boyle denies telling him.

Original letter is being processed by Laboratory for latent prints and comparison with anonymous letter file and typewriting in file of former Agent b6 who is in Phoenix. Results will be promptly set out when examinations completed.

While it appears allegations against Edwards are exaggerated distortion of true facts and no evidence Edwards was drunk, he certainly should have reported promptly the receipt of traffic ticket.

RECOMMENDATION:

That Edwards be censured for failure to promptly report the traffic ticket he received on 10-10-63.

ATTACHED IS A PERMANENT BRIEF OF THE PERSONNEL FILE OF SA EDWARDS

Memorandum W. S. Tavel to Mr. Mohr

DETAILS:

Anonymous letter dated 5-15-65 addressed to Director contained allegations concerning Inspector H. L. Edwards' conduct while attending conference of prosecuting attorneys in Phoenix, Arizona.

ALLEGATION #1: About a year ago there was a conference of prosecuting attorneys of the South Western States held at Phoenix, Arizona. One of the speakers at this conference was to be Lynn Edwards.

FACTS: Edwards attended two law enforcement conferences in Phoenix, (1) Western Association of Attorneys' General, 10-6, 7, 8, and 9-63, and (2) the National District Attorneys' Association, 3-3 through 8-64. He was scheduled to speak at both conferences but writer is apparently referring to October, 1963, conference.

ALLEGATION #2: Mr. Edwards never spoke because he was incapable due to prolonged intoxication.

FACTS: Mr. Edwards states he spoke both times as scheduled and was completely sober. Former SAC Edward Boyle, then assigned Phoenix, and SA Joseph Pyne both state that while didn't actually hear Edwards speak on 10-8-63, they had breakfast with him before speech, and saw him in front of conference room prior to scheduled appearance, morning session 10-8-63 and saw no indication he had been drinking. #3 cards reflect attendance of Boyle and Pyne at this session. Summary of remarks Edwards delivered later published in formal summary of the meeting.

At 1964 conference SAC Soyars and Boyle had lunch with Edwards on 3-4-64 before scheduled speech and both state completely sober. Soyars did not stay for speech, but Boyle heard Edwards speak, and we have picture taken on this occasion, showing Edwards at speaker's podium and Boyle with him on platform.

ALLEGATION #3: Facts of incident were reported to Edwards immediate superior, Jim Gale.

FACTS: Assistant Director Gale categorically denies he ever heard of any such incident and was never called by former SAC Boyle concerning any misconduct by Edwards. Boyle confirms he never mentioned anything concerning this to Gale.

ALLEGATION #4: Conference was held at a main hotel on Central Avenue in Phoenix and Mr. Edwards stayed there.

FACTS: October, 1963, conference was held at Westward Ho Hotel, prominent hotel on

Memorandum W. S. Tavel to Mr. Mohr

Central Avenue in Phoenix, and Edwards had room 914. March, 1964, conference was held at Ramada Inn, East Van Buren Street, Phoenix, and Mr. Edwards stayed there during conference.

ALLEGATION #5: On the morning Mr. Edwards was to speak, he did not appear, so about 20 minutes before his scheduled speech, the hotel manager went to Edwards' room and knocked. When he failed to get a response to his knock the manager opened the door to the room. He found Mr. Edwards in bed and in such a drunken condition that he called the man in charge of FBI in Arizona, Mr. Ed Boyle. Two Agents came to the hotel and spent the day getting Mr. Edwards sober.

FACTS: SA Joe Pyne states he left office at 8:20 a. m. on 10-9-68 - confirmed by #3 card - (day after Edwards spoke) to pick up Edwards' plane tickets and take them to Edwards at hotel. He picked up tickets, and arrived at Westward Ho about 9 a. m., went to conference room to locate Edwards, didn't see him, asked an Assistant Attorney General of Washington, to whom Edwards had previously introduced him, but who hadn't seen Edwards, then called Edwards' room on house phone, got no answer, checked restaurant without results and receiving no answer when knocked on Edwards' room door, asked maid to let him in. She could not, since door locked from inside. (A common practice by guests according to manager and one which hotel encourages to prevent thefts) Thinking Edwards was possibly ill, Pyne immediately called Boyle, who shortly arrived and got hotel manager, [] to admit them with master key. Edwards was asleep. Manager left immediately and Boyle awakened Edwards, who appeared surprised to find them in his room got up immediately, Payne handed him ticket and left minute later. Pyne states saw no evidence Edwards was drunk and appeared rational as briefly discussed ticket. Minute later Boyle came out of room, went with Pyne to hotel lobby and Pyne proceeded to police school he was conducting. b6

Boyle generally confirms above facts. #3 card reflects Boyle returned to office from Scout breakfast at 9:15 a. m. and he states on arrival received call from Pyne and went immediately to hotel, entered Edwards' room, found him asleep but not drunk, and waited in lobby until Edwards dressed, had breakfast with him, attended some of conference session and later that day attended lunch with Edwards at Lawyers' Club, scheduled as conference activity - #3 card shows Boyle left office for "luncheon A. G." 2:12:12 p.m. Conference program shows schedule for 10-9 was breakfast 8 - 9:30 a. m. Conference session 10 a. m. to 12:30 p. m. 1 to 2:30 p. m. luncheon at Lawyers' Club. b6

Hotel Manager, [] recalls an occasion when asked by Boyle to admit him and another Agent to room occupied by an FBI man. [] was principally concerned whether room occupant had died, and when he saw him move, left immediately, without going near bed. Could not say whether or not drunk, and does not recall whether or not man got out of bed before [] left.

Memorandum W. S. Tavel to Mr. Mohr

Edwards states on night of 10-8 attended reception and State dinner, had two bourbon highballs at reception in 45 minutes, nothing to drink at dinner, which ended about 10 p. m. ; after dinner conversed with attorneys general and wives in hospitality room and had one beer. About 1:15 a. m. Attorney General of Idaho asked Edwards to have coffee while discussed law enforcement training, but coffee shop was closed and they went to Highway Patrol quarters at hotel where Edwards had about two drinks, discussed law enforcement schools and went to room about 3 a. m. He planned to skip breakfast prior to 10 a. m. conference session 10-9. He has no precise recollection, but vaguely recalls one morning when Pyne and Boyle came to his room and awakened him; states his first reaction was that there was some emergency, and was told they were merely concerned when received no response to door or phone. They stated they would see him in lobby after he dressed and he estimates he joined them shortly after 9 a. m. He states hotel phones normally don't ring more than short single ring, bed was quite removed from door, and only reasons he can advance for sleeping so soundly were drastic climate change, high altitude of Phoenix, and fact he had gotten to bed late night before.

Soyars, Boyle and SA [] who attended 3-64 conference at Ramada Inn, all state no such incident occurred at that conference and no excessive drinking by Edwards then. b6

ALLEGATION #6: After the two FBI Agents left Edwards about 6 p. m. , he continued his drinking spree. He was arrested early the next morning in the north part of Phoenix for drunk driving by a Phoenix policeman. When identity and position of Mr. Edwards became known to the policeman, he called his Sergeant, who tried to talk the policeman out of arresting Mr. Edwards. The policeman gave some ground and issued a traffic ticket for driving on the wrong side of the highway and running a stop sign. The police sergeant carried Mr. Edwards to the hotel and put him to bed.

FACTS: Boyle states he had speech after luncheon at Lawyers' Club on 10-9 with Edwards and saw Edwards no more that day. Boyle's #3 card shows speech at a school and return to office at 4:35 p. m. SA Pyne says he spent rest of day at police school at Arizona State University after leaving Edwards' room in morning and saw Edwards no more. Pyne's #3 card shows "ASU" and return to office 5 p. m. Edwards states after conference ended, he handled numerous wind-up matters, made some phone calls, packed his clothes and got ready to check out since plane left 8:30 a. m. , 10-10. Since it was his first trip to Phoenix, and meeting was concluded he wanted to do some sightseeing in Camelback and Scottsdale area several miles East of Phoenix, and wanted to see several people at Mountain Shadows Club in that vicinity. He drove a rented car, and although he originally estimated he ate dinner about 9 a. m. , now feels it must have been after midnight when he finished dinner and arrived at the Shadows, since shortly after going into the bar and ordering a beer the bartender said it was last call before closing at 1 a. m. Edwards had

Memorandum W. S. Tavel to Mr. Mohr

a second bottle of beer, finishing about 1:20 a. m., with numerous people still sitting in the pool area. He attempted to locate people he had come to see, was told they were at restaurant on way back to town. He had coffee and ice cream sundae and read newspaper there and started back to town without finding his friends.

Edwards states in memo of 5-19-65 that route back was confusing, and he missed intersection should have taken to Phoenix. After some miles area began to look strange and he tended to speed up, in search of some sign or service station. He was stopped by police vehicle, showed operator's permit and since out of state, with Arizona tags on car, officers asked where he was headed and appeared incredulous when he said "Westward Ho" since he was not going toward it. Officers issued ticket for speeding and they gave him correct directions and he drove back to hotel.

Attached copy of traffic ticket on file at Phoenix Police Department reflects issued to Howard Lynn Edwards, Annandale, Virginia, at 3:30 a. m., 10-10-63, on West Glendale Avenue for "unlawful speed" (60 mph in 45 mph zone) by officers [] and []. Penalty is shown as \$30 or 10 days and plea of guilty was entered on 10-15, found guilty and sentence suspended with note "FBI requested suspension." Initials of Judge James M. Smith appear on it, as well as a firm signature of H. Lynn Edwards.

Officer [] recalled stopping car in early morning hours during Attorney Generals' Conference, headed west on Glendale Avenue away from town. He recalled being under impression driver was with office of Attorney General of West Virginia, but admitted this was probably wrong since he had Virginia driver's permit. Edwards denies any such misrepresentation. [] states he did not know driver was with FBI or might have refrained from issuing ticket out of courtesy to fellow law enforcement officer. [] says car was weaving somewhat, (Edwards feels this may have been due to his looking for street signs) and took off fast from a stop sign, but that driving was not dangerous, and that infraction was "unlawful speed." Felt driver had had something to drink from odor of breath, but definitely not under the influence. b6

Edwards at first refused to sign ticket and asked to see superior officer. Sergeant [] was called to scene (in accordance with police instructions whenever driver will not sign ticket). [] explained that signing did not admit guilt, but merely constituted promise to appear in court. Edwards explained he was returning East that morning, could not appear and so refused to sign. [] told him law allowed someone to appear for him, and unless he signed they would have to bck him b6 up and leave car at scene or tow it away. Edwards then signed and was allowed to drive back to town.

Officer [] was on vacation, whereabouts unknown, until 6-15, but Sgt. [] confirmed above account, commenting that since they did not know of

Memorandum W. S. Tavel to Mr. Mohr

Edwards' connection with the FBI when the ticket was issued, and no reason for any special treatment, if he had been drunk they would have put him in jail. He did not recall there was any question of drinking involved, and said Edwards was not objectionable in his conduct.

ALLEGATION #7: Before leaving Phoenix later that morning, Mr. Edwards ordered Mr. Boil to fix the ticket. Mr. Boil talked to Mr. Gale who told him to take care of the ticket. It took two FBI Agents all day to get the ticket fixed with the Phoenix police.

FACTS: Edwards states before leaving at 8:30 a. m. on plane on 10-10 (ticket issued 5 hours earlier) he asked Boyle what he should do to properly comply with ticket, since he could not appear in court. Boyle indicated probably no action would be taken since Arizona lenient with out of state drivers. Boyle agreed to inquire and advise Edwards if any fine or other action. Edwards states he heard nothing further, later asked Boyle and was told that he had personally inquired, no action was taken and Edwards could forget whole thing. Edwards felt since status as Bureau employee not known, Bureau not involved, and regrets he did not advise Bureau earlier because of lack of complete information. Director noted "Edwards should have promptly reported this."

Boyle confirms above, and states he appeared before Judge James M. Smith (A former Agent, EOD 11-13-50 - Resigned 6-1-56 to practice law - Bureau service satisfactory), entered plea of guilty for Edwards and offered to pay fine, but Judge Smith stated under the circumstances he would suspend the fine.

Judge Smith states Boyle appeared before him, explained member of FBI, Inspection Staff, had received ticket for speeding while at Attorney Generals' Conference, had to return to Washington and offered to pay fine. Judge Smith said he would not dismiss the case but suspended the fine, since he could not accept cash, would have had to enter on another docket, and under circumstances he did not feel it was fair for Boyle to have to pay the fine. He stated he would occasionally extend similar courtesy to other law enforcement agencies where circumstances seemed to warrant it. He stated notation "FBI requested suspension" was merely made by him to remind him of FBI's interest, and did not mean that Boyle had actually requested suspension or was unwilling to pay fine.

Gale denies knowing of this and Boyle denies telling him. Ticket is still on file at Police Department and was not "fixed."

CHEST: A single PA radiograph shows no evidence of active cardiac or pulmonary disease. There is some evidence to indicate previous inflammatory disease involving the right costophrenic angle. There is tenting of the lower right pericardium suggesting adhesion between the pericardium and the adjacent pleural surface. The cardiac and mediastinal structures are otherwise normal. There is no significant change in this film as compared with the examination of 12-4-64.

PERSONAL ATTENTION

Mr. James H. Gale
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Gale:

The findings of the recent inspection have been evaluated and the various operations are rated as follows: Physical Condition and Maintenance, Specific Division Operations and Administrative Operations - Very Good; Personnel Matters and Contacts - Excellent.

Space and furnishings assigned to your division were reported adequate, secure, efficiently arranged and well maintained except for minor housekeeping delinquencies corrected on the spot or ordered corrected. Continue to periodically stress each employee's individual responsibility to share in physical condition and maintenance.

Although the total number of investigative matters supervised by your division was down from the prior inspection, this was largely attributable to Selective Service cases and these are now showing a sharp rise due to expanding draft calls. In view of the current wave of draft card burnings and antidraft demonstrations, it is most essential that the Bureau handle its responsibilities in this category in a vigorous and forthright manner. We must also be alert to the need for any additional legislation should our investigations reflect any inadequacies in existing laws in this area. Although the percentage of delinquent cases in all classifications handled in your division was only slightly higher than during the previous inspection, I am concerned over the three classifications exceeding seven percent. Accordingly, I shall expect you to give prompt corrective attention to Anti-Racketeering, Interstate Transportation in Aid of Racketeering, and Selective Service Act matters.

Your noteworthy increase in fugitives apprehended is good, but the picture is clouded by the fact that approximately one-fifth of the general fugitive and deserter cases are over six months old and about one-tenth have

been pending more than one year. These cases become more difficult with age, so I must insist that special efforts be directed towards prompt solutions. Also, you should arrange to periodically take inventory of old cases so that some yardstick of your progress will be available.

The extensive strengthening measures instituted by the prior inspection in your Criminal Informant Program have demonstrated creditable results in economy, improved accomplishments, and better quality control. You should now focus on further quality control, greater agent participation, broader geographical and subject matter coverage, an increased reserve of quality potential criminal informants, and such other refinements as the program progressively can absorb. Of at least equal importance is the Top-Echelon Criminal Informant Program, for I am sure you realize as fully as I that therein lies our most stable hope for meeting the challenge of organized crime. I note the Inspector's report that you are credited with an increase in both the total number of Top-Echelon informants and the number of those who are members of La Cosa Nostra. Please give all possible emphasis to continuing this encouraging record.

I am greatly encouraged by the examples of various inroads we are making in penetrating and disrupting hoodlum operations in local, national, and even foreign areas. These demonstrate excellent resourcefulness, imagination, supervisory analysis and guidance, as well as commendable Bureau cooperation through proper dissemination to other law enforcement agencies. Federal prosecutions of telling effect must remain our primary target if organized crime is to be eradicated; hence you must continue to vigorously exhaust all such possibilities, and this includes constant alertness to new concepts, new investigative techniques, and new legislation.

Your Criminal Intelligence Program properly continues to concentrate on La Cosa Nostra. It is disappointing that only about 1,100 of the estimated total membership of 5,000 have been identified, a drop from the estimated 1,300 at the last inspection. The Inspector reports this drop, largely attributable to tighter identification criteria, appears reasonable. However, we must press all the harder and especially in those nine areas of the country where you estimate less than ten percent of the membership has been identified.

Federal grand juries and selective use of existing immunity statutes appear to have been valuable weapons against the hoodlums, despite their limited scope. We must be ready for extensive use of the immunity tool if the Supreme Court upholds its use and if the pending legislation passes to broaden the scope of the immunity law.

URGENT YELLOW

Mr. James H. Gale

The curtailment of our technical coverage has seriously hampered us. Although the present "climate" offers little hope for any significant resumption of appreciable reliance on such sources, I do want to be kept up to the minute on all developments so that any feasible policy changes can be considered.

Continue your noteworthy progress in gambling cases and intensify all reasonable efforts to disrupt hoodlum activities. The prospect of a breakthrough to obtain access to Swiss banking information in hoodlum cases is most reassuring and you should pursue this vigorously. The special applicant inquiries continue in volume as do the White House and other summaries. Your division has been commended for quality and dispatch in this work, and I hope I need not remind the personnel involved of the necessity for maintaining the Bureau's performance record in this delicate and important phase of our responsibilities.

Although it is creditable that no substantive errors were detected in files reviewed, the need for greater accuracy is indicated by the increased percentage of form errors in such files.

The Inspector reported your administrative operations were improved over the prior inspection. Incoming mail was handled promptly with no delinquency noted. Although the Inspector concluded the retention of extra copies of summaries prepared on high-level candidates for Federal appointment is justified by the number of expedite requests for copies you continue to receive, to conserve space you should purge them of known deceased and also periodically re-evaluate justification for the retention policy. In order that all officials at the Seat of Government can be kept apprised of developments in the criminal field, you should update your system of distributing the "Nationwide Criminal Activities" and "Criminal Intelligence Digest" and number future issues.

I am pleased with the progress made by your stenographers and typists since the last inspection in that they, except for stenographers of less than ninety days' experience, have raised their production from below the Seat of Government average to above it and also reduced the number of retyped pages to less than the Seat of Government average. You should afford your newer stenographers adequate training to raise the level of their production to that of the more experienced personnel.

No abuses of sick leave were noted. The Inspector discovered the Time and Attendance Clerk was retaining routing slips submitted by employees requesting sick leave. These serve no useful purpose once appropriate records are posted and should not be retained thereafter.

Mr. James H. Gale

During fiscal year 1965, twenty-nine suggestions were submitted and nineteen adopted as compared with thirty-nine submissions and sixteen adoptions the prior year. Please stress the desirability of all personnel participating in this program. The number of correspondence errors was lower during this inspection than during a comparable period last inspection, a desirable trend.

I am pleased you have been able to reduce total division personnel and efficiently operate the division with four agents less than your budget allotment for fiscal year 1966. The Inspector concluded your personnel is adequate for the current and estimated work load. All employees were fully and productively occupied.

Training programs for new employees were found effective, and your division was alert to and helpful in the Bureau's training programs. In-Service lectures monitored were timely and well presented. Voluntary overtime of agent personnel was adequate and equitably shared. No agents are on limited duty or overweight. There were five work-related injuries in the division since the previous inspection, an increase of one over the last inspection. You should indoctrinate the employees to be more safety conscious. The number of awards received by employees in fiscal year 1965 indicates that the officials are alert to recognize deserving employees.

I am advised that you have represented the Bureau's interests effectively in dealings with the Department in daily contacts regarding matters supervised and in such special dealings as the recent United States Attorneys' Conference. Also, it is encouraging to learn that you and key members of your supervisory staff are maintaining effective contacts with other government agencies and officials incidental to matters supervised. A number of pertinent recommendations have been made to the Department for legislation to strengthen existing statutes concerning organized crime, the progress of which you should follow closely. The division is alert to furnishing other divisions information of interest. These practices should be continued and encouraged.

You and the Number One man should carefully review the findings in the inspection report and in the work papers left with you. Within thirty days of the date of this letter advise of the corrective action taken.

Sincerely yours,

John Edgar Hoover

JUNE

INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR H. L. EDWARDS; SEPT. 20 - OCT. 14, 1965

SUMMARY

Officials: Assistant Director James H. Gale, since 12-15-64 replacing Courtney A. Evans who retired 12-30-64; Inspector Charles H. Stanley, No. 1 Man since 2-17-61. Last Inspection: 9/10 - 10/6/64.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division continues to occupy space on 1st and 7th floors, Justice Building. Security and maintenance satisfactory except for minor housekeeping delinquencies corrected or ordered corrected, and needed painting already scheduled and Division following. Realignment for contiguity of unit and consolidation of 2 first-floor mail rooms ordered last inspection have improved efficiency and economy. Agents' credentials and other property satisfactory.

Specific Division Operations - Very Good (Last Inspection - Very Good). On 9-30-65 Division supervised 40,689 matters - down 1,102 from 9-30-64; decrease mostly Selective Service cases but sharp rise now evident due to expanding draft calls. Field delinquency in all classifications supervised 4.6% on 9-30-65, up slightly from last inspection; 3 classifications exceeded 7% (Antiracketeering, Interstate Transportation in Aid of Racketeering, and Selective Service); reducing delinquency stressed by Inspector.

Fugitives apprehended - 13,491 fiscal year 1965, up 5.3% over 1964. Increase 9.3% first 2 months this fiscal year. "Ten Most Wanted" Program claims 2 more apprehensions fiscal year 1965 over 1964. Prior year's figures not available for comparison, but Inspector noted about 19.5% general fugitive and deserter cases over 6 months and 9.6% over 1 year old. Intensified attention ordered to effectuate earlier solutions. Division exercising judicious use of Identification Orders, Wanted Flyers and Check Circulars.

Extensive strengthening made last inspection in Criminal Informant Program has increased efficiency and accomplishments. Examples: criminal informants up 24.8% from 3,339 to 4,169; average cost per informant down from \$125.26 to \$103.71; apprehensions credited to informants up 52.8% from 2,671 to 4,080, and recovered property \$9,243,336 - up \$2,131,348. Inspector stressed constant review and evaluation of program for more improvements, including better geographical coverage.

Since last inspection Division compiled many achievements in penetrating and disrupting hoodlum operations in local, national, and several foreign areas; these demonstrate excellent resourcefulness, dissemination, and cooperation. However,

Memorandum to Mr. Tolson
Subject: Inspection - Special Investigative Division

primary aim remains to make Bureau prosecutive cases and Division must continue to keep pressure on all field offices where such potential exists.

Criminal Intelligence Program continues focus on La Cosa Nostra (LCN). Total membership still estimated at 5,000, but total identified down to about 1,100 from 1,300 at last inspection, largely due to Division's tighter standards. Inspector stressed intensification in geographical areas where 10% or less of LCN concentration identified. Federal grand juries and immunity statutes, despite limited scope, have proved excellent weapon against organized crime. Division urged to be ready for extensive use of this tool if Supreme Court sustains use in pending appeals, also to detect hoodlum efforts to circumvent or insulate against immunity, and to follow pending legislation to broaden scope of immunity laws. Curtailment of microphone surveillances has seriously hampered fight against organized crime. Current "climate" and Long Committee hearings give little hope for early return to such techniques but Inspector stressed closely watching situation so Director and Attorney General can reconsider resuming techniques when feasible; in meantime, Division must do all possible to develop live informants and other sources. Top Echelon Criminal Informant Program improving (55 on 10-5-65, up from 125 last inspection; 10 are LCN members, up from 8 last inspection). Division urged to intensify program designed to disrupt LCN. Gambling convictions up fiscal year 1965 to 90 from 56 prior year. Division recently developed high Swiss police official whereby intergovernmental agreement may result giving Bureau access to hitherto untouchable Swiss banking data re hoodlum accounts; now being explored in Department and Division instructed to pursue vigorously. During U. S. Attorneys' Conference 10-11-65, Division representative detected desire by some U. S. Attorneys to meddle in Bureau investigations of organized crimes. Bureau's interests defended and appropriate SACs alerted.

Volume of special applicant and Security of Government Employees investigations still high (10,054 current year, up from 9,103 preceding year). Volume of White House and other summaries heavy; Division commended for quality and promptness. Sharp increase in Selective Service and Deserter cases due to Viet-Nam and similar crises, including draft card burnings and antidraft demonstrations. Inspector stressed close supervision of recent legislation re destruction or mutilation of draft cards; and alertness to need for additional laws. Form errors detected from file reviews 2.4%, up from last inspection (1.7%). Accuracy stressed. No substantive errors in files reviewed.

Administrative Operations - Very Good (Last Inspection - Good). Division functional organization logical, efficient. Mail deadlines observed, no delinquencies. Special Inquiry Unit retaining copies of summaries - justified by expedite requests but Inspector ordered purging of known dead and periodic re-evaluation of retention policy. Criminal Intelligence and Organized Crime Section instructed to update distribution system and start numbering issues of "Nationwide Criminal Activities" and "Criminal Intelligence Digest" publications. Division commendably raised stenographic and typing production and accuracy averages but production of newer stenographers needs added attention. Time and attendance clerk retaining sick leave requests already posted - destruction ordered. No sick leave abuses. Only 29 suggestions submitted fiscal year 1965 (down from 39 fiscal 1964) but 19 adopted, significant gain over 16 in 1964. Inspector emphasized participation by all personnel. Economy program actively supported through

Memorandum to Mr. Tolson
Re: Inspection - Special Investigative Division

personnel reductions and streamlining. Correspondence errors down. Defense plans satisfactory. Division alert to referring public relations items to Crime Records Division.

Personnel Matters - Excellent (Last Inspection - Very Good). Personnel down from 175 last inspection (57 agents, 118 clerks) to 152 (57 agents, 105 clerks) adequate for foreseeable work loads. Reduction represents 10 in stenographic unit, 1 GS-6 clerk-stenographer re-assigned from Front Office without replacement to Section vacancy, 1 reviewer-analyst eliminated by consolidation and streamlining in Criminal Intelligence and Organized Crime Section, and 1 clerk in Atomic Energy Unit due to decreased work load. Division agreed to hold agent staff to 57, or 4 below budget quota of 61. Personnel productively occupied. Morale high. Training effective but 1 agent delinquent in firearms - due to priority work specials; early correction ordered. Division alert to and helpful in Bureau training program lectures, conferences effective. Division suspended additional regional field conferences in organized crime due to economy but in view of effectiveness and necessity for intensifying informant development and prosecution potential, Inspector ordered periodic re-evaluation. No agents delinquent on physical examinations, none overweight or on limited duty. Clerical Promotional Availability List adequate. 5 work-related injuries since prior inspection - up 1, safety stressed. Division alert to employee recognition via commendation, Incentive Awards, and quality increases. Recreational program and Investigator submissions above average.

Contacts - Excellent (Last Inspection - Excellent). Although Assistant Director has less responsibility than predecessor for special liaison and public speeches, inspection findings indicate that Assistant Director Gale has brought about a much firmer attitude in dealings with the Department in daily contacts regarding matters supervised and in ^{such} special dealings as the recent U. S. Attorneys Conference. Division Head and other key supervisors have much responsibility for frequent contacts with other agencies and officials incidental to matters supervised; inspection reflects this work handled in manner favorable to Bureau. No liaison problems but Peace Corps refusal to furnish confidential file information in Security of Government Employees investigations currently being followed through Domestic Intelligence liaison with Sargent Special Investigative Division instructed to follow closely. Division alert to legislative needs. b6

RECOMMENDATIONS: 1. Assistant Director James H. Gale, GS-18 @ \$24,500, not on probation, veteran, in charge of Division since 12-15-64. Has outstanding appearance, an aggressive, positive personality. His extensive field experience coupled with an excellent command of policy and procedures fit him admirably for the challenges of fighting organized crime. He has a positive and progressive approach to the work and inspires respect and confidence of associates. Inspection findings fully justify continuing present assignment. He manifests clarity of mind, a high degree of ingenuity, force and aggressiveness which he daily applies to his assignments, furnishing inspirational leadership to his staff. The accomplishments of his division have been impressive.

Mr. Gale presents an exceptionally fine appearance and possesses a friendly, yet forceful, personality and is most effective in his personal contacts and as a Bureau representative with highly placed officials. Through his rare ability to quickly analyze the most complex and important investigative problems and to get to the heart of a problem without delay, Mr. Gale has made a major contribution to the Bureau's continuing success and this rating of Outstanding is clearly merited.

PERSONAL

Dear Gale:

I want to both officially and personally express my appreciation to you for the masterful manner with which you handled the situation developing from the so-called use of microphones in the Black matter.

At no time in my recollection did the Bureau face a more critical and at the same time turbulent crisis than it did during the weeks that you personally handled the details of this matter for me.

All that you and I sought was to have the true facts presented with no punches pulled. Even though we were unable to ultimately attain this end, the way in which you stood up to the pressures exerted upon you by Departmental officials from the Attorney General down indicated a masterful response to your responsibilities and to the best interests of the Bureau.

I am indeed grateful for having as one of my close associates such a dedicated man as you have proven to be.

Sincerely,

J. Edgar Hoover

In April and May of this year, my wife underwent two major operations and is presently recuperating from same. While she has made progress, it has not been as rapid as we hoped for. Recently, she has become very nervous and depressed concerning her physical condition. The Doctor has advised that if possible she should "get away from it all for several weeks."

At 7:15 p.m., Friday, December 9, 1966, I was involved in an accident while going home from work. I was accompanied by Supervisor George W. Gunn. An automobile driven by [redacted] Alexandria, Virginia, crossed Arlington Boulevard from Marshall Street and was not completely off the second lane for west-bound traffic. I was proceeding west and therefore applied my brakes in order to avoid hitting the [redacted] car at which time I was struck in the rear by an automobile driven by Miss [redacted] Falls Church, Virginia. She, in turn, was struck by another automobile driven by [redacted] [redacted], Front Royal, Virginia.

Damage to my automobile was estimated at \$400 and the other cars suffered about the same amount of damage. Mr. Gunn had some minor cuts on his leg. I had a pulled muscle in my neck from the whip lash action of being hit but it seems to be completely normal today. My only claim against the insurance company will be for damage to my automobile.

[redacted] admitted to Officer [redacted] Fairfax County Police, who investigated this accident, and myself, that he was going 55 miles per hour in a 45 mile per hour zone and had his mind on something else and did not see the two cars in front of him slowing down. He was cited for failure to pay full time and attention to driving.

**INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR H. LYNN EDWARDS
OCTOBER 31 - NOVEMBER 18, 1966**

SUMMARY

Officials: Assistant Director James H. Gale since 12-15-64. Inspector Charles H. Stanley, No. 1 Man since 2-17-61. Last Inspection: 9/20 - 10/14/65.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Division continues to occupy space on first and seventh floors, Justice Building. Space secure, adequate and well maintained, except for minor housekeeping delinquencies ordered corrected. Division initiated action to strengthen security by changing 35 file cabinet locks to require a more restricted key. Reproduction of material tightly controlled. Lighting inadequate in Rooms 7632-7644. Long-standing request to improve lighting in Rooms 7632-44 shows promise of correction by General Services Administration this fiscal year. Eight agents and one clerk to obtain new photographs for credentials.

Specific Division Operations - Very Good (Last Inspection - Very Good). On 10-31-66 Division supervised 51,297 matters, up from 41,849 last inspection. Major increases: Selective Service and Deserter cases, due to escalation in Vietnam; and Interstate Transportation in Aid of Racketeering due to intensified criminal intelligence efforts and exploitation of existing criminal sanctions. Field delinquency in classifications supervised 2.9%, down from 4.6% last inspection; no classifications over 7%. Over-all statistical accomplishments in classifications supervised in fiscal 1966 up in convictions (+28.4%) but down in fines, savings and recoveries (-52.6%). Gambling convictions reached new high of 98. First 4 months current year up 33.2% in convictions and 138.9% in fines, savings and recoveries. Fugitives apprehended fiscal 1966 up 6.2% and up 8.5% first 4 months current year. Fugitive cases over 6 months and over 1 year old reduced since last inspection. "Ten Most Wanted" fugitives apprehended fiscal 1966 total 20, up 2 over previous year. Identification Orders, Wanted Flyers and Check Circulars selectively and effectively used.

Number of criminal informants (CIs) down slightly since last inspection but potential informants (PCIs) increased substantially. Division stressing conversion of PCIs to full informant status. Informant accomplishments up in fiscal 1966 but down

first 4 months current year, except for recoveries in Bureau cases. Division instructed to accelerate reversing trend.

Accomplishments in organized crime noteworthy since last inspection. Prosecutions pending up from 122 to 345. Inspector on Special Assignment New York reports intelligence-type investigations there now warrant major focus on prosecutions. La Cosa Nostra (LCN), prime target of Criminal Intelligence Program, has 1,240 of estimated 5,000 members identified (up from 1,100 last inspection). Complete loss of technical sources a severe setback but Division pressing vigorously for live informants. Top Echelon informants increased from 155 to 195, including increase from 10 to 16 in LCN member informants with 11 of 24 known LCN families penetrated. Inspector stressed identification of all families and members imperative. Use of immunity statute upheld by U. S. Supreme Court. Efforts continue for access to numbered Swiss bank accounts through treaty, but progress limited to date.

Special Applicant and Security of Government Employee investigations increased to 51,539 last year (up 41.5%); increase likely to continue; Bureau handling commended by White House and others. No substantive errors in files reviewed.

Administrative Operations - Very Good (Last Inspection - Very Good). Administrative organization of Division provides efficient, effective teamwork, permits essential flexibility of personnel. Creation of separate Deserter Unit since last inspection has promoted efficiency; Unit now experimenting with decentralization of active sections of "Zero" files as streamlining measure. On suggestion of Inspector, Selective Service Fugitive Index moved into Unit space to conserve time. Inspector detected imbalance in case load among supervisors in Interstate Gambling Activities Unit; Division instructed to withhold adjustments for 60 days in view of possible temporary nature. Mail flow smooth, deadlines met. Stenographic and typing production above Seat of Government averages, but typing production below unusually high Division average of last inspection due to less experienced typists. Retypes low, no delinquency past 6 months. No censurable correspondence errors past 6 months. Form errors detected from file reviews low. Total suggestions fiscal year 1966 (22) again declined from fiscal year 1965 (29) but current fiscal year trend favorable; Division instructed to insure all creditable suggestions tabulated.

Division has shown commendable attitude and noteworthy progress in adapting work to Automatic Data Processing, especially in La Cosa Nostra index, evaluation of Criminal Informant Program, and placing fugitives in National Crime Information Center; multiple demands on Division's reproduction equipment (Xerox and Thermofax) suggest need for smaller auxiliary machine; Division to compile justification data.

Memorandum to Mr. Tolson

Re: Inspection - Special Investigative Division; 10/31 - 11/18/66

Inspector suggested minor correction in maintenance of compensatory and sick leave records and Division Form Book to comply with Bureau standards. Division alert to economy but tremendous upsurge in workload has precluded any savings past two quarters under President's Cost Reduction and Management Improvement Program. Defense Plans current.

Personnel Matters - Excellent (Last Inspection - Excellent). Personnel complement 10-31-66, 178 (62 agents, 116 clerks) up 5 agents and 10 clerks (includes 2 agents and 2 clerks on temporary assignment) from last inspection, necessary due to increased workloads. Four agents delinquent in firearms due to "specials," early correction ordered. No physical examination delinquencies. No agents overweight, on probation, on limited duty or unavailable. Voluntary overtime necessary, productive, equitably shared. Morale high. Division participates effectively in Bureau training programs. No field conferences held since last inspection and none scheduled; current policy requires all conferences be held incidental to In-Service training. Division has sponsored Specialized In-Service Schools and plans additional ones. In view of widespread enthusiasm, demonstrated "grass-roots" benefits, and substantial economies of past field conferences, Division urged to keep alert to changed conditions warranting re-evaluation of current policy. Division submissions to "The Investigator" excellent. Work-related injuries down from last inspection. Division alert to employee recognition where warranted; letters of commendation to agents decreased from 35 fiscal 1965 to 23 fiscal 1966. Inspector suggested Division hereafter maintain sectional breakdown to spot check equitable attention to employee recognition.

Contacts - Excellent (Last Inspection - Excellent). 101 Division contacts, up from 50 last inspection. Liaison on matters supervised active and effective. Division instructed closely follow progress in Ninetieth Congress of additional immunity legislation needed to assist in fight against organized crime (legislation died in House Judiciary Committee when Eighty-ninth Congress adjourned). Division alert to furnish Crime Records Division current material for articles and speeches by Director.

RECOMMENDATIONS: 1. Assistant Director James E. Gale, EOD 11-29-39 as clerk, 6-21-43 as Agent, GS-18 @ \$25,390, veteran, not on probation, in charge of Division since 12-15-64. Makes outstanding appearance, is aggressive, enthusiastic, dedicated. Has excellent command of policies and procedures as well as continuing problems encountered in fight against organized crime and other areas of responsibility. Is providing positive leadership and has respect and confidence of employees in his Division. Attached for approval is letter to Mr. Gale summarizing inspection findings.

2. Inspector Charles H. Stanley, No. 1 Man, EOD 6-24-35 as clerk, 6-26-39 as Agent, GS-17 @ \$25,800, nonveteran, not on probation, No. 1 Man of Division since 2-17-61. Makes substantial appearance, has vigorous personality, is loyal, conscientious and has thorough knowledge of policies and procedures affecting work of Division. Functions effectively as No. 1 Man. Attached letter to Assistant Director Gale will also advise Stanley of inspection findings.

Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Gale:

After reviewing the results of the inspection of the Special Investigative Division, I have approved the following ratings for the various phases of operation: Personnel Matters and Contacts - Excellent; Physical Condition and Maintenance, Specific Division Operations, and Administrative Operations - Very Good.

The space occupied by your Division was found to be secure, adequate, and generally well maintained. The housekeeping delinquencies noted by the Inspector indicate the need for all personnel to be continually alert to good housekeeping practices. These delinquencies should be corrected promptly. The inadequate lighting in Rooms 7632 to 7644 has been a problem of long standing, but it now appears likely the General Services Administration will be able to correct this condition during the current fiscal year. Please afford this matter your close personal attention to insure final action is taken as promptly as possible. The eight Special Agents and the clerical employee who require new photographs should obtain them promptly.

I was gratified by the noteworthy accomplishments achieved by the Division since the last inspection, including the breaking up of a large draft-dodging ring, the initiation of prosecutive action against top hoodlums, major raids and arrests in the gambling field, and the apprehension of badly wanted fugitives.

The Inspector reported that the investigative matters supervised by your Division had increased substantially but that the over-all field delinquency in these classifications had been effectively reduced. I was particularly pleased that no investigative classifications were over seven percent delinquent.

Mr. James H. Gale

You achieved substantial improvements in convictions recorded and fugitives apprehended during the past fiscal year; however, a decline was experienced in fines, savings and recoveries. Although the Inspector reported this decline resulted from unusually large recoveries in a fugitive classification the preceding year, progress in each statistical accomplishment category is imperative. I note you are credited with a favorable record in all three categories thus far in the current fiscal year, and I hope this encouraging trend continues.

Pending prosecutions in gambling cases have increased substantially, which is most desirable. As instructed by the Inspector, you must follow these cases closely to insure that prosecutive action is not allowed to drag.

Although you have increased the number of top-echelon informants and member informants of La Cosa Nostra, the number of identified members of La Cosa Nostra has shown only a relatively small increase since the last inspection. Since the identification of its membership is a major factor in planning effective action against this powerful criminal organization, I must insist on greater progress in the future.

You must take steps to overcome the current lag in the development of criminal informants through increased stress on the field in exploiting and developing the numerous potential criminal informants now available. You must also decisively reverse the current unfavorable trend in accomplishments attributable to informants so that the productivity of this important program will compare favorably with the past fiscal year in all categories.

It was good to learn that the heavily increased load of applicant-type inquiries for the White House and other agencies has been handled promptly and thoroughly and that you have been able to absorb this additional work without commensurate increase in personnel.

Your Division was found to be administratively set up to promote efficient, effective teamwork and to permit essential flexibility of personnel. No problems in the flow of mail were noted. The distribution of cases among Agent Supervisors in the Interstate Gambling Unit should be evaluated after sixty days to eliminate any remaining imbalance of work load which has not proved to be temporary. The maintenance of the Selective Service Fugitive Index in the Unit's working area as suggested by the Inspector should be fully tested and continued if found of benefit. You should

Mr. James H. Gale

also promptly complete the evaluation of the retention of recent sections of the "zero" file on deserters in the working area with a view to effecting a permanent arrangement which will operate to the best advantage of your Division and the Files and Communications Division.

I was pleased with the production records achieved by your stenographic and typing personnel but you should continue to encourage the typists to meet the unusually high average recorded for your typists in the prior inspection. Your low percentage of retypes, zero delinquency the past six months, and the absence of any censurable correspondence errors the past six months are all commendable.

Please make certain employees handling sick and compensatory leave records comply with the instructions issued during the inspection to keep these records in a uniform manner. Also insure that your Division's Form Book is maintained as suggested.

I was disappointed to learn that the number of suggestions submitted by employees in your Division had decreased for the second consecutive year. It is only through the participation of all employees in the suggestion program that we can achieve maximum benefit to Bureau operations. The importance of this program should be continually stressed to the employees of the Special Investigative Division, and special efforts should be expended to insure all proper suggestions are credited.

The Special Investigative Division has shown a commendable attitude and noteworthy progress in adapting work to Automatic Data Processing. Continue to encourage such progressive ideas and endeavor to provide opportunities for more of your personnel to broaden their knowledge of computers so as to generate additional ideas for computerization of susceptible work.

In view of the numerous overlapping demands for use of the Xerox and Thermofax equipment in your Division, you should closely follow the Inspector's instructions to compile data which will permit a determination as to whether efficiency and long-range economy will be served by acquiring a smaller auxiliary machine.

In view of the substantial increase in the work of the Division, your current personnel complement is considered justified. In view of the fluctuating nature of some of your work, you must maintain effective controls to insure close evaluation of your personnel needs in order that prompt

Mr. James H. Gale

adjustments of your staff will be made as warranted. The need for the two Agents on loan from the Washington Field Office must be re-evaluated as of January 1, 1967, and the necessity for the clerical employees on temporary assignment should be specially followed.

The four Special Agents delinquent in firearms training should clear their delinquencies promptly. Every effort must be made to maintain firearms and other training current despite the special demands placed on our personnel by the nature of our work.

The decrease in work-related injuries was encouraging. Please continue to stress the importance of safety. The Inspector reported that morale in your Division appears high.

I was pleased to note the substantial increase in the number of Division contacts since the last inspection and that your liaison on matters supervised by the Division has been active and effective.

You must closely follow the progress of additional immunity legislation during the next Congress in order that the value of such legislation to our fight against organized crime may be adequately expressed through proper channels.

You and your Number One Man should carefully review the inspection findings in the inspection report and work papers. Within thirty days you should advise of the corrective action taken.

Sincerely yours,

John Edgar Hoover

For approximately two years I have had a joint investment in some beach property in Ocean City, Maryland, with a number of other individuals. One of the provisions of our joint agreement was that if one of the members decided to sell his share, the other members had an option to purchase their pro-rata share of this property. I recently received an offer from [redacted] to purchase part of the share of this property that he was selling. I accepted this offer. However, [redacted] then withdrew his offer and sold his entire share of the property to another individual in flagrant disregard of our previous contract.

I have referred this matter to my attorney, [redacted] and I feel he will be able to reach an amicable understanding with all parties concerned.

At approximately 1:30 a.m. this morning, [redacted] who lives across the street from me, telephonically advised that there were several individuals prowling around my house. The Fairfax County Police Department was appropriately advised and Officer [redacted] subsequently came to my residence at 1:45 a.m. He was given a description of a young individual probably from 18 to 22 years old who was seen crossing the front yard of a neighbor's house several doors up the street and an individual seen in the back yard of my next-door neighbor. Officer [redacted] advised that he had encountered one of these individuals on the next street while responding to the call but had taken no action to accost this individual and determine what he was doing.

It will be noted that high school and college age-boys have been very active in the area recently and have engaged in various acts of vandalism in the neighborhood. There was no indication that any of my property had been disturbed in any way.

Dear Mr. Gale:

I want to commend, through you, the personnel in the Special Investigative Division for the splendid supervision which they afforded the field relative to fugitive matters which contributed to the excellent accomplishment record compiled during the 1967 Fiscal Year.

These employees insured that all matters of an accomplishment nature were expeditiously handled and without their efficient and knowledgeable efforts, these results would not have been as successful. I want you to convey my appreciation to all participants for their fine teamwork.

Sincerely yours,

PERSONAL ATTENTION

Mr. James H. Gale
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Gale:

After reviewing the results of the inspection of the Special Investigative Division, I have approved the following ratings for the various phases of operation: Specific Division Operations, Personnel Matters and Contacts - Excellent; Physical Condition and Maintenance and Administrative Operations - Very Good.

The space occupied by your Division was found to be secure, well organized and generally well maintained. The inadequate lighting in Rooms 7632 to 7644 must be corrected at the earliest possible date and you should continue to closely follow negotiations with the General Services Administration to insure prompt correction of this long-standing deficiency.

I was pleased to note the substantial improvement in your accomplishments since the last inspection. The overall increases in convictions and particularly those directed against the leadership of organized crime as well as increased fugitive apprehensions attest to overall success of investigations directed by your Division. I did note, however, declines in unlawful flight cases. Insure that the Inspector's instructions to place additional emphasis on liaison with local authorities are promptly carried out.

The excellent inroads made against La Cosa Nostra and other phases of organized crime since the last inspection are indeed noteworthy. The penetration of thirteen of the twenty-four known La Cosa Nostra families demonstrates what can be done and I will expect continued progress to effect complete penetration. It is only through such complete coverage that we may expect the desired prosecutive results.

The importance of the Criminal Informant Program to our overall investigative effort cannot be overemphasized. I was pleased the accomplishments by criminal informants during fiscal year 1967 exceeded those

of fiscal year 1966 in all categories. The stress being placed on development of quality informants is extremely important. You must be certain continued emphasis and close supervision are afforded this program in order to achieve maximum accomplishments in the future.

Although the number of office of origin cases supervised by the Division increased, the field delinquency in all categories except Selective Service matters was maintained below seven percent. In spite of the large increase in the number of Selective Service cases handled due to the Vietnam situation, delinquency must be kept to a minimum.

While your stenographic production was slightly below the Seat of Government average due to lack of experience, the production of your typists was substantially above average. Retyped pages were well below average indicating accuracy is being stressed. Continue to insure maximum efficient use is made of stenographic personnel,

I was pleased to find form errors detected during this inspection were well below those detected last year. The increase in suggestions by employees of your Division since the last inspection is a favorable trend that should be continued. Be certain all employees remain alert to applications for automatic data processing and continue your close cooperative efforts with the National Crime Information Center.

In view of the substantial increase in the work of the Division, your current personnel complement is considered justified. The Inspector reported that morale in your Division appears high.

Your Division contact program was found to be effective and your liaison on matters supervised by the Division is highly effective. You should continue to closely follow legislative matters affecting your Division's work.

You and your Number One Man should carefully review the findings in the inspection report and work papers. Within thirty days from the date of this letter advise of corrective action you have taken.

Sincerely yours,

John Edgar Hoover
Director

Memorandum to Mr. Tolson

Re: Inspection - Special Investigative Division

1,240 identified last inspection. Top-echelon informants increased from 195 last inspection to 223. Top-echelon targets under development increased from 543 to 582. LCN member informants now 28 compared to 16 last inspection. Sources in 13 of 24 known LCN "families" up from 11. Accomplishments by criminal informants for fiscal year 1967 exceeded fiscal year 1966 in all categories, and up in five of seven categories at end of first quarter fiscal 1968. Continued emphasis and close supervision of live informants stressed.

Administrative Operations - Very Good (Last Inspection - Very Good). Supervisory responsibilities well organized, equitably shared. Supervisors alert to delays and improper submission of information by the field. No unnecessary delays in handling mail or files noted. Mail flow smooth, deadlines met. Formation of Criminal Intelligence Special Projects and Research Unit since last inspection facilitates research and correlation of information on LCN and organized crime; also expedites handling Departmental requests for searches of Electronic Surveillance Indices. Stenographic production slightly below Seat of Government average due to lack of experience, but typing production substantially above. Retypes well below average, no stenographic delinquency during six-month period reviewed. Form errors detected in file reviews well below last inspection. Suggestions by employees fiscal year 1967 (29) increased over fiscal year 1966 (22). Division alert to use of automatic data processing (ADP) equipment and National Crime Information Center (NCIC) in operations. Defense plans current.

Personnel Matters - Excellent (Last Inspection - Excellent). Personnel complement 11/1/67, 184 (63 Agents, 121 clerks) up 4 Agents and 7 clerks (increase includes 2 Agent and 2 clerical temporary positions made permanent since last inspection). Current complement considered adequate but not excessive due to substantial increase in work load. In view of further anticipated increases particularly in the field of special inquiries for the White House, Assistant Director instructed to closely follow manpower requirements. No physical examinations delinquent. No Agents overweight or on probation. One Agent not available for general assignment - justified. Voluntary overtime necessary, productive and equitably shared. Morale appears high. Division utilizes Specialized In-Service Schools in training field personnel. Active FBIRA program being followed, participation excellent and 22 items published in "Investigator" including one feature article. Division alert to employee recognition where warranted.

Contacts - Excellent (Last Inspection - Excellent). Division contact program effective; provides diversified, quality coverage. Division closely follows legislative matters relevant to its work responsibilities. Division actively participates in furnishing Crime Records Division, other Bureau officials and the field with suitable speech material. Liaison on matters of interest active and effective.

INSTRUCTIONS TO EMPLOYING AGENCY

1. **Who must file.**—All employees not excluded by law or regulation from insurance coverage, including those who have previously waived coverage, are required to complete and file Standard Form 176-T. Employees who are in the service on February 14, 1968, as well as those who are appointed after that date but before April 14, 1968, must file the form.
2. **Automatic cancellation of previously filed waivers.**—All "Waivers of Life Insurance Coverage" (SF 53) on file are automatically canceled as of the first day of the first pay period beginning on or after February 14, 1968. Payroll offices are to begin regular insurance deductions on the automatic cancellation date for employees who do not file a new waiver, i.e., those who do not check box **C** of SF 176-T, on or before that date.
3. **Employees failing to file.**—If an employee does not return a completed SF 176-T, contact him and urge him to do so even if he does not want optional insurance (he will, of course, be automatically covered for regular insurance). If he still fails to file SF 176-T by April 14, 1968, or 31 days after appointment, whichever is later, file one for him as of that date: mark box **B**, and note in the space provided for his signature "employee contacted—failed to elect optional insurance." See note 2 below.
4. **Review of completed forms.**—(a) Review both copies of the SF 176-T for legibility, completeness, and consistency. Reconcile with the employee any obvious major discrepancy such as a mark in more than one box.
 (b) If the employee marked box **A** or box **C**, make sure the Statistical Stub is complete. Then detach and mail stubs, in a bundle, weekly to:
 Office of Federal Employees' Group Life Insurance
 (Statistical Study)
 4 East 24th Street
 New York, New York 10010
 (c) If the employee marked box **B**, detach and destroy the stub.
5. **Date of receipt and effective date.**—(a) Stamp date of receipt by employing office in the space provided for this purpose on both the Original and the Duplicate.
 (b) The effective date is determined from the table below.
6. **Disposition of forms.**—(a) File the Original SF 176-T in the official personnel folder in all cases.
 (b) Any necessary payroll change, with effective date, may be posted in the space reserved on the Duplicate for employing office.
 (c) The Duplicate may be destroyed, if no payroll action is required, or after the requirements of the agency's payroll system have been met.
7. **Use of SF 176-T.**—SF 176-T "Election, Declination, or Waiver of Life Insurance Coverage" should not be used after the initial filing period (after April 14, 1968). A revised edition will be available for use after that date.

TABLE OF EFFECTIVE DATES

DATE SF 176-T RECEIVED BY EMPLOYING OFFICE	EMPLOYEE'S DECISION	EFFECTIVE DATE (IF NO WAIVER, SF 53, IN EFFECT)	
		OF DECISION	OF DEDUCTIONS
On or before February 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective February 14, 1968.	Deductions begin 1st day of 1st pay period beginning on or after February 14, 1968.
	Declines optional (but not regular) (box B).	Declination effective February 14, 1968.	.
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which February 14, 1968 falls.	Deductions stop last day of pay period in which February 14, 1968 falls.
After February 14 but not later than April 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective on date of receipt.	Deductions begin 1st day of 1st pay period beginning on or after date of receipt.
	Declines optional (but not regular) (box B).	Declination effective on date of receipt, but employee loses automatic optional protection on February 14, 1968.	
	Cancels previously elected optional (but not regular) (box B).	Cancellation effective last day of pay period in which received.	Deductions for optional stop last day of pay period in which received.
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which received.	Deductions stop last day of pay period in which received.

- NOTES: 1. Because regular insurance coverage and deductions are automatic unless waived (by checking box **C**), **A** and **B** elections do not affect regular insurance effective dates.
2. An employee for whom the agency files SF 176-T because he failed to file is deemed to have declined optional, but not regular, insurance.
3. An employee with an uncanceled waiver (SF 53) on file cannot be insured any earlier than the first day he is in duty and pay status in a pay period beginning on or after February 14, 1968; filing of an SF 176-T before that date will not cancel an SF 53 any earlier. Deductions begin the day he becomes insured.
4. The effective date of regular (and optional) insurance coverage for an employee who has been on leave without pay for more than 1 year is the first day he is in pay and duty status. Deductions are effective the same day.

PERSONAL ATTENTION

Mr. James H. Gale
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Gale:

After reviewing the results of the inspection of the Special Investigative Division, I have approved the following ratings for your operations: Physical Condition and Maintenance, Specific Division Operations, and Contacts - Excellent; Administrative Operations and Personnel Matters - Very Good.

I was pleased to learn of the exceptionally fine condition in which your space is being maintained. With our space needs sorely taxed, continue to insure the most effective possible utilization of space assigned to your Division.

Your substantially higher record of accomplishments achieved since the last inspection is noteworthy. The increase in convictions obtained in violations supervised by your Division and the marked overall increase in fugitive apprehensions attest to strong supervision of these matters. I was pleased to note that no substantive errors were found in files reviewed and that the field delinquency in classifications supervised by your Division has been reduced. Follow the Inspector's instruction to place emphasis on those types of fugitive matters which have recently shown a downward trend in development of new cases.

The inroads made against La Cosa Nostra and related areas of organized crime are most gratifying. The penetration of fifteen of the twenty-six known La Cosa Nostra families denotes continued progress in our Top-Echelon Informant Program. There must be no surcease of effort in this vital program to penetrate every family and subordinate unit of organized crime wherever it exists.

Continue emphasis on and close supervision of the Criminal Informant Program throughout the field. The true measure of success of that program

is in steadily increased accomplishments and I am pleased to learn that the past year has produced such increase, particularly in direct solutions, recoveries and apprehensions in FBI cases.

While the high production, low incidence of retyped pages, and absence of stenographic delinquency are noteworthy, form errors increased slightly over those of last year indicating renewed attention is called for in this area of case supervision. I was pleased to note the prompt processing of mail by your supervisors and the judicious use of airtels and of stops on mail.

Promptly implement the Inspector's suggestions relating to the streamlining of submission of certain periodic data by the field concerning informant and fugitive progress matters. Also implement his suggestion to preprint descriptive data on fugitive identification forms in order to conserve typing time expended on these forms.

The Inspector has advised that despite heavy increases in work load of Deserter and Selective Service matters, you have managed to hold the net increase of your permanent Agent complement since the last inspection to one supervisor, through reorganization and streamlining of supervisory functions. Follow closely at all times the proper utilization of manpower throughout all sections of your Division.

The contributions by your employees to Bureau-wide programs, such as blood donations, "Investigator" submissions, and suggestions for improvement of the service, as well as the high morale reported by the Inspector, are demonstrative of your leadership and achievement of necessary teamwork.

Your Division contact program was found to be productive and effective and I note the substantial benefits derived from liaison contacts. Continue to follow closely legislative matters affecting the work of your Division.

You and your Number One Man should carefully review the findings in the inspection report and work papers left with you. Advise the Inspection Division as soon as possible of corrective action you have taken.

Sincerely yours,

John Edgar Hoover
Director

INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR L. M. WALTERS
8/29 - 9/13/68

SUMMARY

Officials: Assistant Director James H. Gale since 12/15/64. Mr. Thomas J. McAndrews, Number One Man since 4/27/68 (retired Inspector Charles H. Stanley, Number One Man prior thereto). Last inspection: 10/16-11/1/67.

Physical Condition and Maintenance - Excellent (Last Inspection - Very Good). Division continues to occupy space on first and seventh floors Justice Building. Space adequate, secure and exceptionally well maintained. Adequacy taxed but effective utilization being made. Security checks effective. Housekeeping delinquencies minimal.

Specific Division Operations - Excellent (Last Inspection - Excellent). Division currently supervising 48,274 pending office of origin matters compared to 41,106 at last inspection -- increase of 17%, principally in Selective Service and Deserter cases. Work has declined slightly in Employees Security and Special Inquiry Section and has remained relatively constant in Criminal Intelligence and Organized Crime Section. Field delinquency in classifications supervised 1.5%, down from 3.5% last inspection -- no classification over 7% last 6 months. No substantive errors in files reviewed. Convictions in classifications supervised for Fiscal Year (FY) 1968 up 11% and trend continuing upward in current FY. New highs reached in gambling convictions (143) for fourth consecutive year. 18,881 fugitives^s apprehended FY 1968 for all-time high; up 19% over prior year. Every field office exceeded last year's fugitive record. 31 "Ten Most Wanted" fugitives apprehended FY 1968 also new high for this program. Emphasis ordered on general fugitives and unlawful flight matters to reverse downward trend of new cases in recent months. Identification Orders, Wanted Flyers and Check Circulars effectively utilized on selective basis. In organized crime field convictions increased 43% over prior year. Significant penetration of La Cosa Nostra (LCN) continues with 32 member informants (28 last inspection), 262 top-echelon informants (223 last inspection) and 621 targets (582 last inspection) all representing increases. 1,450 LCN members identified (of estimated total of 2,700) up from 1,350 last inspection; 15 of the 26 known LCN families covered by member informants (11 last inspection). Also substantial increases in local actions against organized crime as direct result of dissemination program. Criminal Informant Program improved with greater accomplishments in FBI cases and overall increase in coverage throughout field. Continued emphasis and close supervision of live informants stressed.

Memo for Mr. Tolson
Re: Inspection - Special Investigative Division

Administrative Operations - Very Good (Last Inspection - Very Good). Supervisory responsibilities well organized, equitably shared. Reorganization and consolidation of units in Criminal Intelligence and Organized Crime Section since last inspection resulted in streamlining and reduction of one supervisor. Supervisors alert to delays and improper submission of information by field -- no unnecessary delays noted within Division in handling mail and files. Stops on mail held to minimum; judicious use of airtels. Form errors at 3.25% slightly above prior year but below field average. Inspector's suggestions to streamline field submissions of informant letters and fugitive progress letters and to preprint descriptive data in Bureau fugitive identification form concurred with and implemented. Stenographic production above average; retyped pages below -- no stenographic delinquency. Mail deadlines being met. Odd-hour shifts justified; clerical employees afforded close supervision.

Personnel Matters - Very Good (Last Inspection - Excellent). Authorized personnel complement 8/31/68, 193 (64 Agents, 129 clerks); up net of 1 Agent and 8 clerks since last inspection due to substantially higher Deserter and Selective Service work loads. Current complement considered adequate and not excessive. Prior temporary overage of personnel in one section recognized by Division and corrected through attrition -- Assistant Director instructed to closely follow manpower utilization and requirements. No Agents overweight or on probation; one unavailable -- justified. Employee suggestions up with 30 submitted and 16 adopted; Division alert to employee recognition where warranted. One work-related injury (none last inspection). Division commended 7/19/68 for excellent participation blood donor program. Two feature articles and 19 items published in "Investigator." Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Effective program provides diversified, quality coverage; 42 contacts added and 60 deleted since last inspection. Legislative matters relevant to work responsibilities closely followed. Substantial benefits derived from liaison contacts. Excellent speech material supplied Crime Records Division, Bureau officials and field.

RECOMMENDATIONS:

1. Assistant Director James H. Gale, aged 46, GS-18 @ \$28,000, veteran, not on probation, in charge of Division since 12/15/64. Outstanding appearance, dedicated, enthusiastic and dynamic. Gale is firm, capable administrator with full grasp of all areas of responsibility of Division. Provides positive leadership and has respect of employees under his direction. Attached for approval is letter to Mr. Gale summarizing inspection findings.

Memo for Mr. Tolson

Re: Inspection - Special Investigative Division

2. Thomas J. McAndrews, Number One Man, aged 51, GS-16 @ \$28,000, nonveteran, not on probation, Number One Man since 4/27/68. Makes excellent personal appearance, has firm and aggressive personality, thoroughly knowledgeable in Division policy and procedures. Functions very effectively as Number One Man. Attached letter to Assistant Director Gale will also advise McAndrews of inspection findings.

3. Recommendations regarding other personnel handled separately.

Dear Mr. Gale:

An official communication was prepared under date of June 18, 1969, to Congressman Fred E. Rooney in response to an inquiry he made in connection with information received by the Newark Office in 1965. (You indicated that you were aware that the Special Agents in Charge of our Newark and Philadelphia Offices had been contacted with regard to the contents of this letter; however, you did not personally verify the proposed acknowledgment with either of these two employees. Had you followed this course of action, particularly with the Special Agent in Charge of our Newark Office, there would have been no question as to whether the Bureau was aware of all pertinent information.

I will expect you to discharge your future responsibilities in a more discerning manner so that it will not be necessary to again bring such a matter to your attention.

Very truly yours,

J. Edgar Hoover

PERSONAL ATTENTION

Mr. James H. Gale
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Gale:

After reviewing the results of the inspection of the Special Investigative Division, I have approved the following ratings for your operations: Physical Condition and Maintenance, Administrative Operations and Contacts - Excellent; Specific Division Operations and Personnel Matters - Very Good.

The substantial increases recorded in statistical accomplishments in matters supervised by your Division during Fiscal Year 1969 are noteworthy and I am pleased to learn of the continuous rise thus far in the current fiscal year in fugitives apprehended. I am concerned, however, with the downward trend in convictions in classifications supervised in your Division thus far in the current year. This is a matter which must receive your aggressive attention in the months ahead.

I was pleased to note the further progress made in penetration of La Cosa Nostra and related areas of organized crime. The number of highly placed figures in organized crime convicted during the past year demonstrates that emphasis is being placed where needed in this most important program. Also favorable is the increase in convictions in gambling violations. You must continue to press for development of these violations throughout the field, whether organized crime exists in the territory of a particular office or not.

The low rate of field delinquency in cases supervised in your Division and the fact that no substantive errors were found in files reviewed are indicative of the type of supervision I expect from our case supervisors at the Seat of Government. Promptly implement the Inspector's suggestions made in individual cases reviewed, as well as procedures he proposed to tighten controls over informants. The increased accomplishments from the Criminal Informant Program demonstrate our unquestioned

need for productive live informants but at the same time, as you well know, intensive supervision is required to avoid the possibility of plants and to prevent the continuation by the field of unproductive informants. Also, when all of our field offices are connected directly to National Crime Information Center terminals, implement the Inspector's suggestion to streamline your fugitive index.

The regular controls you exercise over maintenance and security of space occupied by your Division have produced fine results. Insure that they continue. I was most pleased to note the improvements effected in all areas of administrative operations throughout your Division. The high rate of production and low incidence of errors by stenographic and clerical personnel represent fine records. Also impressive is the effective manner of administering the influx of White House inquiries as a result of which the utilization of temporary supervisors was held to a minimum.

The contact program of your Division was found to be effective and productive and I note the substantial benefits derived from liaison contacts. Continue to follow closely legislative matters which affect the work of your Division.

You and your Number One Man should carefully review the findings in the inspection report and work papers left with you. Advise the Inspection Division as soon as possible of corrective action you have taken.

Sincerely yours,

John Edgar Hoover
Director

INSPECTION - SPECIAL INVESTIGATIVE DIVISION
INSPECTOR L. M. WALTERS
9/5 - 19/69

SUMMARY

Officials: Assistant Director James H. Gale since 12/15/64. Number One Man Thomas J. McAndrews since 4/27/68. Last inspection: 8/29 - 9/13/68.

Physical Condition and Maintenance - Excellent (Last Inspection - Excellent). Division continues to occupy space on first and seventh floors of Justice Building. Space adequate, secure and exceptionally well maintained. Housekeeping delinquencies minimal. Security procedures and utilization of space effective. No vehicles assigned.

Specific Division Operations - Very Good (Last Inspection - Excellent). Division currently supervising 57,467 pending office of origin matters compared to 48,274 at last inspection - increase of 19%, principally in Selective Service and Deserter cases, but case load up in all Sections of Division. Field delinquency averaged 1.7% in all matters supervised (low) and no single classification reached 7% in any month. No substantive errors in files reviewed; suggestions made to aid solutions in 2 cases. Convictions in classifications supervised up 18% in Fiscal Year (FY) 1969 over FY 1968; for first 2 months of FY 1970 down 19%. Over 25,000 fugitives apprehended FY 1969 for all-time high -- up 36% over prior year. Every field office exceeded prior year's fugitive record; trend continuing upward current FY. 18 "Ten Most Wanted" fugitives apprehended FY 1969 (31 prior year). Identification Orders, Wanted Flyers and Check Circulars effectively utilized on selective basis. Significant penetration of La Cosa Nostra (LCN) continues with 36 member informants (32 last inspection), 294 top-echelon informants (262 last inspection), and 823 targets (621 last inspection) all representing increases. 1692 LCN members identified (of estimated total of 2700) -- up from 1450 last inspection; 16 of the 27 LCN families covered by member informants and 6 of the 27 LCN family bosses convicted or arrested in FY 1969. Gambling convictions up 7%. Criminal Informant Program improved with greater accomplishments in FBI cases and increase in approved informants and potential informants throughout field. Inspector instituted procedures to tighten controls over informants in areas of evaluation and corroboration of information supplied (all top-echelon informant files reviewed). Suggestion also made to streamline fugitive index when all FBI offices connected to National Crime Information Center.

Administrative Operations - Excellent (Last Inspection - Very Good). Supervisory responsibilities well organized and equitably shared. Mail deadlines being met; no delinquency in Division since last inspection. Stops on incoming mail tightly controlled.

Memo for Mr. Tolson

Re: Inspection - Special Investigative Division

Supervisors alert to delays and improper submission of communications by field. Form errors down at 1.35% -- well below field average. Stenographic production above average; retyped pages low; no stenographic delinquency. Division alert to effective records management -- streamlining devices put in effect since last inspection to curtail generation and distribution of certain administrative reports and forms. Division instituted 2 new adaptations of its work to computerized data (telephone numbers utilized by known gamblers and index on LCN membership). Efficient administration of White House special inquiries resulted in substantial reduction of utilization of borrowed temporary supervisors than in prior similar conditions (39% higher work load but 36% fewer borrowed supervisors). Odd-hour shifts justified; clerical employees afforded close supervision.

Personnel Matters - Very Good (Last Inspection - Very Good). Authorized personnel complement of 62 Agents and 137 clerks at beginning of inspection represents decrease of 2 Agents and net addition of 8 clerks since last inspection (Division reduced 2 Agents and 1 reviewer-analyst on adoption of moratorium in field submission of fugitive reports). During inspection addition of 1 Agent to complement requested -- justified (separately approved). No Agents overweight or on probation; one unavailable -- justified. Employee suggestions continue high with 16 adopted of 20 submitted. No work-related injuries (1 last inspection). Morale appears high.

Contacts - Excellent (Last Inspection - Excellent). Comprehensive program provides diversified, quality coverage; healthy turnover with 57 deleted and 49 added since last inspection -- 216 contacts being utilized. Legislative matters related to work responsibilities closely followed. Substantial benefits from liaison relationships. Excellent speech material supplied Crime Records Division, Bureau officials and field.

RECOMMENDATIONS:

1. Assistant Director James H. Gale, aged 47, GS-18 at \$33,495, veteran, not on probation, in charge of Division since 12/15/64. Outstanding appearance, loyal, enthusiastic and dynamic. Gale is firm, capable administrator with excellent grasp of Division's overall responsibilities. Provides positive leadership and has respect of his employees. Attached for approval is letter to Mr. Gale summarizing inspection findings.

Memo for Mr. Tolson

Re: Inspection - Special Investigative Division

2. Thomas J. McAndrews, aged 52, GS-17 @ \$32,840, nonveteran, not on probation, Number One Man since 4/27/68. Makes excellent appearance, thoroughly knowledgeable in all aspects of Division's work, functions very effectively as Number One Man. Attached letter to Assistant Director Gale will also advise McAndrews of inspection findings.

3. Recommendations regarding other personnel handled separately.

SUBJECT: JAMES H. GALE
Assistant Director
Special Investigative Division

DEATH OF RELATIVE

Mr. Gale called me at approximately 9:30 p.m. last night, 4/15/70, to advise that a favorite aunt (his mother's sister), 68 years of age, had passed away suddenly in Cleveland, Ohio. Death came as a result of a ruptured blood vessel near the brain.

Mr. Gale is the executor of the estate. This was an aunt very close to him, inasmuch as she helped rear him. Mr. Gale indicated he would like to depart Washington early this morning to drive to Cleveland for the funeral. He also desires to be near his elderly mother, who is in no physical condition to take care of funeral arrangements and many other matters which will arise.

I told Mr. Gale that the Director would want him to take any leave necessary and that he should not worry about affairs in his office.

ACTION:

That this memorandum be forwarded to the Administrative Division so that an appropriate letter, for the Director's signature, may be prepared to Mr. Gale.

STANDARD FORM No. 176
APRIL 1968
FPM Supplement 870-1

INSTRUCTIONS TO EMPLOYING AGENCIES

1. *Who must file.*—SF 176 must be filed by—

- a new employee who is not excluded by law or regulation from insurance. This includes one with prior Government service that ended before February 14, 1968, and for whom no SF 176-T is on file,
- an employee appointed to a nonexcluded position following service during which he was ineligible for insurance,
- an employee desiring to change his insurance coverage.

Give a **new employee** copies of SF 176 and SF 176-A when he reports for duty and ask him to return the completed SF 176 showing his election promptly (preferably before the end of the first day period) but in no case later than 31 days after his appointment date.

An employee with prior Government service in a non-excluded position from which he was separated after February 14, 1968, will have an SF 176 (or SF 176-T) on file in his official personnel folder. This election, declination, or waiver remains in effect, and he is accordingly insured, or not insured, in his new employment. He is not required to file a new SF 176.

Until his election, declination, or waiver can be verified, make deductions based on his statement concerning earlier insurance coverage in his "Declaration of Appointee" (SF 61).

An employee with newly acquired insurance eligibility (e.g., one transferred or converted from an excluded to a nonexcluded position or status), must be given the same opportunity to complete an SF 176 as a new employee.

An employee desiring to change his insurance may at any time file an SF 176 declining his optional insurance or waiving his regular (and optional, if any) insurance.

An employee who is under age 50 may also request a cancellation of a waiver of regular insurance or a declination of optional insurance any time after it has been in effect one year. The employee is first required to submit a "Request for Insurance" (SF 51). If the Office of Federal Employees' Group Life Insurance approves the SF 51, notify the employee and ask him then to submit an SF 176 showing his election.

2. Employees failing to file.—If a new employee (or newly eligible employee) does not promptly return a completed SF 176, contact him and urge him to do so even if he does not want optional insurance. (He will, of course, be automatically covered for regular insurance.)

If he still fails to file an SF 176 within 31 days after appointment (or after becoming eligible), file one for him as of that date; mark box **B**, and note in the space provided for his signature "employee contacted on (date)—failed to elect optional insurance."

3. Review of completed SF 176.—Review both copies of the SF 176 to see that it is legible, complete, and correct. If employee waives (marks box **C**) it is advisable to contact him and ascertain whether this expresses his intention or is an error on his part.

4. Date of receipt and effective date.—Stamp date of receipt by employing office in the space provided for this purpose on both the original and the duplicate. The date of receipt automatically determines the effective date as shown in the table below.

5. Disposition of SF 176.—File the original SF 176 in the official personnel folder in all cases. The duplicate may be destroyed if not needed for payroll purposes or after the requirements of the agency's payroll system have been met.

- NOTES: 1. Approval by OFEGLI of a "Request for Insurance" (SF 51) is good for only 31 days. Regular coverage cannot become effective if employee is not in duty and pay status within 31-day period. Optional coverage cannot become effective unless the employee is in duty and pay status and also returns an SF 176, showing an election of optional insurance, to his employing office within the 31-day period. If approval of SF 51 expires, new SF 51 must be submitted to OFEGLI.
2. An employee for whom the agency files SF 176 because he failed to do so is deemed to have declined optional, but not regular, insurance.
3. The effective date of regular (and optional, if not declined) coverage for an employee who has been on leave without pay for more than 12 months is the first day he is in pay and duty status. Deductions are effective the same day.

PERSONAL

Mr. James H. Gale
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Gale:

The Assistant Attorney General for Administration recently raised certain questions regarding reimbursement made to the Bureau by the Department concerning applicant-type cases. (Inquiry revealed that personnel under your supervision failed to make a determination concerning the listing of certain cases and as a result information was furnished to the Department resulting in a misunderstanding.) As Assistant Director of the Special Investigative Division, it was your responsibility to insure that this matter was being handled properly.

In the future, you will be expected to give close supervision to matters of this nature and in so doing avoid criticism as in this instance.
